

New York January 14th 1843

Sir

You will please inform your Brother Morgan, that
Mr Ellsworth's Shop was destroyed by fire on Sunday
Evening 8th ult but that his (Morgan's) tools were got
out after the fire without being burnt we think
however that there may be some water in the
chest and having no way to get into it, without
~~bursting~~ bursting it open we have let it remain
So I must please to tell that he had better come
and attend to them or commission some person to
do it for him immediately

Yours

Ethan S. Blanch
