

A. M. HUNTER,
CARPENTER AND BUILDER.

IRVINGTON-ON-HUDSON,

May 24th 1898

Mr. W. H. Messereau

Dear Sir

In reply to yours of the 23rd will say that I did not put any blame on you in regard to the Shingle Stain or any other matter. As you told me you had sent the samples of stain to Mr. Irving to select the colors from. About 30 days ago when I spoke to you about them Mrs. Irving wrote to me asking why the work on the stable front was not being finished up first. And I replied that it was on acct of not having the Shingle Stain. That I had asked you for the colors 30 days ago. This is the sum of what I wrote. I hope there is no ill feeling about the matter. I always try to be agreeable to all and avoid any trouble arising

Yours truly
A. M. Hunter

IRVINGTON ON HUDSON

Mr. W. H. Thompson
Dear Sir

I will say that I did not find any of the
or you in regard to the change of place
any other matter. As you told me you had
sent the sample of station to the same place
the same from the same place. I have
separate to find about them. I have
to see whether they are the same or not
and not being furnished up for the change
this it was for the change of the
station. That is what I asked you for the
change of. This is the same of what I
asked you in and all feeling toward the
change to be expected to see and avoid
any mistake.
