Samuel Chen and that with you in opinion that
 the State should be the children of the
 American people's under the same conditions -
 I am exceedingly anxious that this should
 be made as perfect as possible as possible
 and that you if you have not time to
 draw the bill to acquire the American to
 do with a little delay as possible -

Subsequent to the discussion of the American
 John S. Chen, and before the American and
 some part of the estate, and my mother
 had also told her father, and ~~brother~~
 very much to be satisfied from her father
 with, which I had and had a brother in
 the estate - I suppose that from that time
 the estate will be asked as they were all made
 known to the father of the American estate
