

Can. Jan. 5. 1834

We dispatch the Galeonda, Capt. Pearson, to morrow morning. and by her I send you the articles mentioned in mine per Cabot. they are consigned to my friend Hunt's brother. A. A. Hunter. and Bill Lading and Invoice of same are forwarded to him who will enter them. and deliver them to you on being called upon and of course the proportion of chgs as they are shipped with a lot of Hunt's goods, which may accrue upon them being paid. this will not am't to much. and I am sure what little it may will be happily defrayed. The two Boxes. Gun Powder & ^{your} ~~gunpowder~~ should be very fine. the others I am not able to say. how good they may be but coming from the merchants they sh'd ought to be good. particularly the 25th. Box Snuff Sachong. as to the Sugar Candy it was scarcely worth while to have sent it. as the duty & Chgs will amount to more than it is worth. it was of no use to me. and I thought might answer as a Chinese Curiosity. to tell people they were using Sugar from the Celestial Empire. By the Captain. I shall send a Backgammon Board for the girls to amuse themselves of an evening. also a small Box Chy four or five painted fine screens. two fans or curiosities
