

My dear Brother

I am under the necessity of asking
again from you the I am fearful that it will
be attended with trouble - but can promise
you if at any time you should want my
services nothing shall withhold them -

Since my return I have purchased a situa-
-tion highly gratifying to my wishes, and
now want immediately to commence build-
-ing, and must therefore solicit from you all
the Plank and Board you possibly
can spare & if any person should have any at
the Lower Mill pray engage them for me
and now the trouble, I will unpromptly thank
You if you could procure for me upon the
Banks of the River so situated as that I could
conveniently get upon the Board Rafter the
-Timber

specified in the following list - viz

1st A sufficient number of large pieces 26 feet long to
be sawed in to pieces of 4 by 10 for Beams, to make
in all 30 — you should know the dimensions & then
calculate that they do not slip to waste

2 Pieces as above to make 70 Beams 20 feet long
