

Waterloo June 11th 1826

Dear Sir

Yours of the 5th Inst was yesterday
received, I hasten to inform you that ~~the~~ the
Box containing the likenesses of General Andrew
Jackson was received together with your letter
accompanying the same, which agreeable to your
request in a previous communication was
published together with my answer in the
Waterloo Gazette of the 31st May last —

This correspondence has roused the
feelings of the political opponents of General
Jackson in this county, in the Seneca Farmer
of the 7th Inst much scurrility and abuse
is aimed at me together with the grossest
charges of corruption as an elector, and in every
manner attempted to blot my reputation
these attempts will wither into obscurity and
pass unnoticed like the fluting blow —

Sarcasm and ridicule when aimed
at a public officer for conscientiously perfor-
-ming a sacred duty to himself and fellow
citizens will eventually mark the perpetrators
rather than the object of their scandals with
contempt. They will be noticed in the Gazette
of this week

I am Sir with great Respect
your Obedient servant
Percy A Parker
