Mr Wm H Mersereau

Dear Sir

It was my intention to go to Irvington myself and look at the stairs to see what was the matter, but being very busy at the time you wrote, I wrote to Mr Hunter, asking him to send a man up there and fasten those spirals on. That was, so as to give me time to go a little later myself. I supposed he had done it.

I expect to go as soon as I can get the time from my hurried work.

Yours truly
Geo A Shipman
