

C. H. CURTISS & CO.
HARDWARE,
PLUMBING & TINNING.

STEAM, HOT WATER AND HOT AIR HEATING.

Tarrytown, N. Y. March 17, 1904.

Mr. Wm. H. Mersereau,

Dear Sir:-

Your favor of the 26th. was received during my absence, but have been so busy trying to clear up accumulated matters since my return, that this letter has been neglected.

I am very much obliged for the information you have given, and appreciate the sentiment which prompts you to make no charge, but I am entirely willing to pay for the trouble you have taken, and expected to do so. If you should insist, however, upon making no charge, then please accept my thanks for your kindness, which it will be my pleasure to return some day, if opportunity offers.

I had a talk with the president and secretary of the Asso., and they have agreed to stop some of the more violent games and exercises. During the summer there will be no in-door games, and so it may be possible to allow them to remain until the close of their year Oct. 1st.

Am sorry to learn that you were sick; think you must need a rest, for I think such troubles are largely due to a run down condition. Had a line from Messrs. D. & I. stating tub had been received from factory, and would be ready to ship in about a week.

We hope it will be along now in a few days. The rest of the work, including painting, is entirely finished. Yours truly,

C. H. Curtiss

March 17, 1904.

Mr. Wm. H. Mercey,

Dear Sir:-

Your favor of the 26th. was received during my absence, but have been so busy trying to clear up accumulated matters since my return, that this letter has been neglected. I am very much obliged for the information you have given, and appreciate the sentiment which prompts you to make no charge, but I am entirely willing to pay for the trouble you have taken, and expected to do so. If you should insist, however, upon making no charge, then please accept my thanks for your kindness, which it will be my pleasure to return some day, if opportunity offers. I had a talk with the president and secretary of the Assoc., and they have agreed to stop some of the more violent games and exercises. During the summer there will be no in-door games, and so it may be possible to allow them to remain until the close of their year Oct. 1st. Am sorry to learn that you were sick; think you must need a rest, for I think such exercises are largely due to a run down condition. Had a little from Wm. H. I. stating you had been receiving from history, and would be ready to ship in about a week. We hope it will be along now in a few days. The rest of the work, including the printing, is already finished.
