

Cornwall Hill Aug. 19-1813

William Miller

It is now just fine weather
I think it would be best to have the
Grass cut along the Creek by Georges - and
to have those bushes cut and I wish you
could get some hand, Abel Travis & his
Boys, Pierre Cronk, S. McCoy, & Gilbert
Adell and on Monday next or sooner if propi-
ous and cut the willows and bushes behind the
bridge opposite to Mr Jones's potatoes and so down
the Creek below Jacob Conklin, and the Alders
and willows in Moore's meadow below Conklin,
along the fence running above that meadow
But if they are not cut before the New
moon, they will grow again --

I will write you again from Albany
when I shall get there is uncertain as the
Boat which was to go to Monday morning
must be broken and there will be no
travelling here until Sunday, however I

try and get on board some Schoon to day or to
morrow - If I had known this before I left
home but I should have been there yet, but
I must meet with disappointment -

Am ever
your friend

Green Cortlandt Jun^r

I wish you to get some Oil & paint the
Cart body before it is used, put it in the
meadow or garden when you do - if you can
get some Spirits of Turpentine & mix with the
oil it will dry sooner -

- Do not let John Miller go across the
River to Canterbury -

Mr William Miller

Geeshill
