New York February 28th 1795

My Dear Child

Mr Jon Lyeth on Wednesday last enquired of me relative to the certificates mentioned in a letter from you. I have written you two letters on the subject which were sent by post. The senate have passed a Bill on that subject which will doubtless become a Law. by which the Treasurer is ~~directed~~ to pay all the certificates issued by the Treasurer and signed by Gerrard Bancker. those given for specie value and bearing Interest will be paid the nominal sum for which they were given with the interest which has accrued thereon, those which were given and ~~which have~~ for specie value are to be reduced to specie value by the scale established by Law in 1781. and if they bear interest the Interest is to be calculated on the specie value. If they are not presented for payment before the first day of January next no Interest accruing after that day will be paid. It is not improbable that you may make some good bargains in these certificates. I have therefore ~~have~~ given the above particular detail to guide your conduct in any contracts which you may make.

I have requested Jon sister to hire a conveyance to send no further than to your house, presuming that you could procure such as Colo. Hamilton may want and at a cheaper rate, than upon as they arrive to send for such as they may want. my ~~love~~ to Sally and the children

Compliments to Mrs & Mrs. Sandt and Miss Hutson

from my dear Child

Your affectionate parents
