THE WORLD'S
WORK

O ct. 10, 1903.

Mr. William H. Mersereau,
32 Broadway, City.

Dear Sir:

Various circumstances have prevented a prompt reply to your letter about credit in connection with the "SunnySide" article, for which we are very sorry . If you will consult the "Table of Contents", you will see that you are credited with two plans . This is as much credit as we ordinarily give to anyone . I admit that if we had been fully informed as to the character of your work in the alteration of the Irving house, that we should have been glad to mention it in the body of the article . In fact Mr. Bacon did furnish a statement to be used in filling out the bottom of a page, but this arrived too late to be used. Previous to this, I think, we had no knowledge of the peculiar way in which you have enlarged the house without changing its appearance from three familiar points of view . If you like, we will try to put a note to this effect in the November number of "Country Life", but our experience is that explanatory notes published a month or two later attract very little attention, and we would prefer not to do this unless you very much desire it . Hoping that this explanation will be satisfactory, we are,

Very truly yours,

Wilhelm Miller

Assistant Editor

COUNTRY LIFE IN AMERICA.
