

Dear Sir

I yesterday send yours of 9th Inst I shall call on Mayon
Montroff and mention the appropriation of the money for
teaching music. Immediately, since I wrote before I
have been to Bridgford and got a bill of the two Carriages
mentioned which is inclosed, having seen a paragraph
in the Spectator of the 14th relative to a message from the
President together with documents respecting a secret
correspondence having been commenced by the British
government in order to promote internal discord in these
States of which if satisfactory proof is secured must
heighten the animosity of every true American against
that government who while its ministers were holding
forth the most solemn protestations of friendship
were at the same time aiming a death blow at the independ-
ence of one of our beloved countries, as to the perfidy and
double dealing of the two great belligerents toward us
I conclude there has never been a parallel in the
annals of ministerial duplicity and intrigue but ~~stands~~
