Brother

Last evening received yours of April 16th — the raft has arrived, and I believe agreeable to the statement, in your letter. (tho I have not yet had them counted) the 1000 good boards you must make me accountable for; but pray let me have about 400 or 500 good refuse, provided I can have them sufficiently seasoned to work early next spring; should there ever intended for me, be at Albany; do not dispose of them for I will send my sloop for them; if so employ for me a hand to pile them in the most proper manner for seasoning —

I am just returned from a long eteloneering expedition — the sentiments of the people change

rapidly in our favor, I am confident we shall
succeed as to our assembly ticket, and am not
certain we shall fail in our Senator, if Brange
does not give more than one majority against
us, I flatter myself with success - God grant it!
for I fear you will not carry Nichols - I should
be glad to hear from you of the prospects of your
election; & let me know something concerning
the Moors - Sally joins in presenting our affectionate
respects to yourself, Eliza, Ann
