

S. ROEBUCK,
172 FULTON ST.

MILLS:—BOROUGH OF BROOKLYN,

New York, Feb. 20th, 1899. 189

110.

W. H. Mersereau, Esq.,

#32 Bway., City.

Dear Sir:—

We hand you our estimate for making 59 Spring Side screens,
9 cellar frames, 7 pair French windows and 4 single doors.

These screens can be used at top or bottom of window; they will be made from hardwood to match the trim in the different rooms, and covered with 14 X 14 black wire. The doors will be made from hardwood and covered with the heavy twilled wire. The French windows will be made like doors and covered with 14 X 14 black wire. Hardware on doors will match house trim.

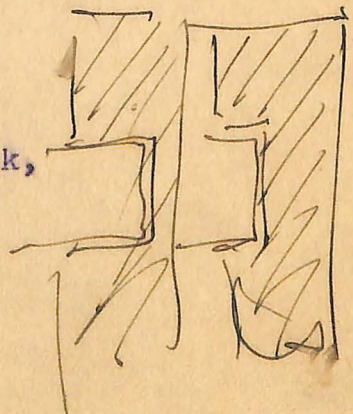

All work done in a first class manner and placed in your house in running order, for the sum of \$195.00. If we use galvanized wire in screens and doors will cost you \$230.00. And if bronze wire is used, will cost you \$258.00.

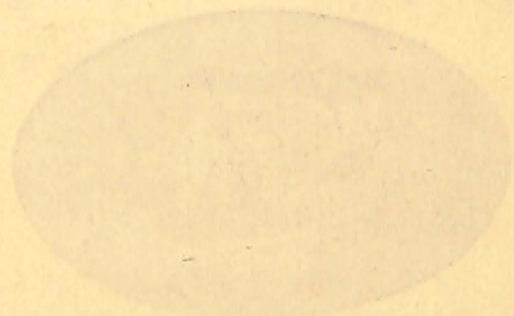

Yours respectfully,

S. Roebuck,

H. R.
