

Dear Brother

With infinite pleasure I received yours
and thank you for the kindness you promise

The trader Mr. Ring a respectable neighbor
of mine, I have prevailed upon, to go and attend
to the procurement of those materials I shall
want from your Quarter, he will present
you with money sufficient to discharge you
from the Contract made for the Timber—
as I have laid out in wheat almost all the
money I could collect, & cannot now get it
to market, I am under the necessity of giving
him an order upon Mr Goodrich who is in-
debted to me & has promised the payment
of the money some time since, should he
succeed in getting it, he will pay your
whole demand, if not write to Th. Widbeck
with whom (as I have written you before) there
is a Note of mine against a good man in
the vicinity of Albany for £60. & let him
pay for the payment, I transmit it to you
Be kind enough to make a statement &
send it me by Mr Ring & should there be
a balance in your favor, draw upon
Philip Ten Eyck at New York which you

can conveniently do by some Albany Cart.

If the former Memorandum I gave you is completed it is well if not I should prefer as follows

36 Beams	4 by 12	25 f' Long	} Or large Pieces of the length suit to saw - as Mr. B. will explain
70 do	do	23 do	
114 do	do	21 do	

4 Pieces	46 f' Long	7 by 10
000	Refuse Planks	}
000	do Boards	
300	Square edg do	
300	do Planks	

2200

If you may suppose my memorandum

extravagant, but I shall build a good house and would much rather have 100 too many than 10 too

few - besides no accurate calculation can hold

out - The kind enough to assist me in getting

the things to the river & I your advice in every

respect - Contracting for the delivery must be

totally rest with you the contract men to be paid

upon the delivery of the Rafts - I must now

submit the whole to your goodness & disposition

to serve me - Sally & the Children are well and

desire to be affectionately remembered to yourself

Eliza & Philip - adieu

Your

Off. Friend Brother

Ph. Schuyler

I have written in much
haste, but by a little
attention I hope you will
discover my meaning
