

Albany Feb - 6 - 1814 -

Wm Miller

I have not heard from home since I left you. I have written two or three times - which no doubt you have received -

It is time to hang up the Commons &c previous to your doing this I wish you three or four days to make a fire in the smock house and let the door be open if the weather is fair & when you smoke them to do it with Nutt wood; - after you begin to smoke them -

smoke three or four days with a good smock. Then not smoke any for two days which days you will let the door stand open ^{in the day time} to give air - Then smoke again three or four days & then stop two days & let the door stand open in the day to give them air, & so continue until they are sufficiently smoked - This is the way they do in Virginia - I have not any thing now particular to mention, when I have I will write you. Mrs. Coothands desires her particular remembrance to home -

Am your friend
