

Philad^a 74 July 1849

Dear Sir

I shall publish the 2^d No. of Sal-
magundi next Saturday & the 3^d on Satur-
day the 31st inst. You give notice in the
com of the Sketch Book that the 2^d No.
will be published on the 1st of August. I
think it would be better for the sale of both
works, if the Sketch Book could be got out
on the Saturday between the 2^d & 3^d Nos
of Salmagundi - that is a week before the
1st of Aug. or a week after would answer
the same purpose. I should be extremely
glad if my 500 copies of the 2^d No could be
sent by the Mercantile line of Packets
about four days before it had started in

New York. The transportation would be so much less than by stage, and it might be appear in both places on the same day. As yet I have only received 300 copies - the remainder have been shipped? but have not arrived. Shall I send you my note for them? Please write to me at the time you determine on publishing the 2nd No that I may mention it on the cover of *Salmagundi* and *Knickerbocker*, to be printed in a few days.

Very respectfully

Wm. Lloyd Garrison

P.S. A few copies of the 1st No came here this week: when in N York who bought them from Mr Wiley. I then sent as many to my brother in New York - Wm. L.

says they did not come here with his knowledge or consent, and I have no doubt that is the fact. But the effect was the same as if he had actually sent them himself that is, so many copies of his 500 came into my market, & it was but fair that as many of mine should go to him. There is no necessity, however, of any clashing or interference, as we can each no doubt dispose of our portions in time. I don't mention the circumstance as a complaint against him; and, indeed, if he has not mentioned it to me

need not say anything to him about it. You may possibly be in N York before the 2nd No comes out -

SHR

W. L. G.
