

New York, Feb 2^d 1835

My dear Carpenter.

I send you proof sheets of a part
of my volume, through fear that the man-
script might miscarry. If the ms. has
arrived safely, still there are some few
corrections in the printed proof which make
them preparable for the printer. In pages
119. & 125 in particular, there are two
alterations I should like to have attended to.

I told you in the letter which accompanied
my ms.* that the price I asked for the
volume was 500 guineas - but make such
bargains as you can - only let the work

come out actually. I have another
^{or}
 volume of quite a different subject, which I
 shall send you, and which I think will
 be very taking.

In great haste

Yours ever

W. Loring
