

C. H. CURTISS & CO.

HARDWARE, PLUMBING & TINNING.

STEAM, HOT WATER AND HOT AIR HEATING.

Tarrytown, N.Y. Sept. 2, 1904.

Mr. W. H. Mersereau,

Dear Sir:-

The court at Mr. A. D. Irving's is ready for the tile layer, -except that we did not concrete over the mouth of the cistern. The gardener said that he had packed the earth in as well as he could, but as it continued to settle, he thought we had better leave it, and let the tile layer finish over it, as it is only a small patch.

We had less difficulty than was expected, putting in these drains, and the cost was only about Forty two Dollars, -so we will charge it up this way, instead of at the contract price.

We suppose the bill should be sent to you; Mr. Irving had us take out the house tank, and make some small repairs, while our man was there. Shall we charge the whole thing in the one bill?

Yours truly,

C. H. Curtiss & Co.
