

New York Feb 6 1828

Dear Uncle

It is with pleasure I embrace this opportunity^{to} of writing to you I intended writing you before and I hope you will excuse my not doing it. Papa's last letter said you had been unwell for some days I hope by this time you have quite recovered your health again.

We have very good sleighing and the streets are full of sleighs which makes it very lively we were all out riding yesterday.

I wrote to Papa the other day I presume he received my letter!

I have nothing particular to communicate at present except our good health and so must finish my letter with love to your self.

Grandmama, Papa Mamma and Brothers tell Corblynd & I how to be much pleased to receive a letter from him.

Your Affectionate Niece

Joanna Van Wyck
