

Friday 15th.

My dear father,

~~I~~ We arrived here yesterday in full health, and spirits, and were received very cordially by the girls - Mathilda came to see us last evening she has grown very fat, (as you say) & has very much improved in her appearance, she seemed quite delighted to see us; she says Madame Grelaud will not believe it possible that I am going to school there - Eliza is well - My best love to Mamma, & Bessy - I never saw any body more altered than Bessy Gratz, she is but the shadow of her former self — I wish you would send me some money - for I want to get a hat & corrected some other things -

The mine goes directly

your affectionate child

Ann Hoffman.
