

We have no Society of any description and as I was
always prone to melancholy have many ridiculous
hymns may be.

How often I dream of the many delightful
moments spent in your society. The first evening
of an acquaintance. at a small party given by Eliza
Mackintosh. and a at a later period a conversation
which took place there between you & my self
suspecting a certain functionary. Pleasant. for
Miss Julia that was. a change came over
the spirit of my dream. You had caused
that change. those joyous are passed away
and without my even having presumption. Sufficient
to make an offer of that which was but too truly
yours already. and perhaps long ere these lines
shall be perused by your dear self. you will
have confided your hand & heart. upon some
more fortunate & happy one than my self
You will remember a ^{man} from which I took from

the time the receipt of my disbursement was on hand
always from the same day. I have many receipts
from after I began of the many receipts
amount spent in your to certify. The first being
of an expenditure at a small party given by the
club with me at a late period a conversation
which took place there between your two self
respecting a certain transaction. I should like
to see the receipt for the change. I am sure
the time of my return. I am not sure
the change. I am sure you are not sure
my receipt. I am sure my receipt is different
to make an offer of that which was not in fact
your receipt. I am sure I am not sure
shall be received of your then self. I am sure
from receipt your then receipt. I am sure
from receipt that you are not sure
from receipt that you are not sure
