

Brother

Yours of 4th I received late, owing to my being absent — I wrote you some time since acknowledging the receipt of your former letter & the rest. The accounts of expenditures enclosed are proper and shall be attended to as soon as possible — you mention a probability of seeing us during the summer, pray don't let the prospect pass, for I want to see you and Eliza much — and it will not be in my power to come up most certain untill I have completed my house with repairs &c. &c.

Your observations respecting your election appear ambiguous — why reject your success better one friend than none; and upon what principle can it injure the cause, in the ensuing contest, as a candidate perhaps you write with diffidence & delicacy; this is not characteristic of our candidate, neither ought since not only success but reputation

Depends upon the events;

I was for a few minutes since I began to write, interrupted by a friend from Ulster accompanied with one, from Orange, by their accounts we shall carry two members for Ulster I certainly succeed as to Cantino; the alderman writes favorable from the South, says that Henry & Dickman will give us federal representatives; but still I am fearful we shall want friends in the lower house; as to the members from this County, the thing is beyond a doubt; our warmest opposers (tho with reluctance) readily give us the seven;

I had almost forgot to return you my thanks for the refuse plants, they are indifferent but still to me valuable, and as such I shall esteem your donation; should you want the balance in your favor, you can draw upon me at sight as also for that of W. Sandis I should like to talk with you upon a subject which I dare not commit to paper, take care your Mother I present my love to him; should

be glad to see him & his little wife at Rhynbuck Sally joins me in Love to all friends at Albany and particularly writes in requesting a visit from you and Patsy this summer, the children are well & fine fellows they are, tell sister I am preparing to furnish all the deficient parts of the family with hies & companions —

I remain I am

I Brother

Affectionately

Yours &c.

The contributions have been completely successful in Ulster as we have in Dutchess — the men among & women & boys to forward to me the plan of my house with the dimensions of the windows above —
