

Union Clubs
Monday April 15/43

I am here from Paris to day on my way to Hartford
find Can't to make money. The Schuyler & I
are to be paid thousands of the notes the
House has R.R. Copy an act of the Legislature
is the first thing necessary - You will have more
of the details hereafter. I am on the alert to
await myself of the Change ~~the~~ for the
letter which is now going on. Ludders
on Saturday talked with me in relation to
Merrin in connection with the foreign
correspondents I intended to look into the
matter & if I can be paid will report
on the matter with all my energy -

I am back to day. The Truck is doing
better. The stock has gone up to 81. The
insurance business is going on as usual
there is threat of sequestration by the Public
officers. The Public however as yet hold
back. We may get a dividend in July
1844 but certainly not in July of this
year. I have been all along the Long
I.R.R. If the Company can get down
they will extend it 20 miles leaving
only about the same distance to its
terminus

Lewman Gravelport on the Sound This morn
 men The Grading Men for is down can
 installment the 2^d this year has been called
 for & half paid already. and the Book
 is going up on the face of it should ^{this}
 be paid in full The Company will be
 safe That is today it will be enabled
 to call for further installments & there is
 more than enough down ^{in the State} to ~~pay~~ finish
 the Road All this will my great
 effort is to borrow for a year or 18 months
 sufficient to pay interest & support the
 loan The latter is necessary on the
 most contracted scale yet preserving
 appearances.

I think you cannot do better as you
are making a good use of your time to
mean with living for an other year
unless I shall before that time find
an advantageous association for you
I hope in the presence of your maternal
duties my friend Harriet is not for-
getting. You and Ellen and Mary by
the Union they give good pleasure
all the family prosper is now at
New L in good health The Place
is I think improving The Group
same more abundant than

has an advantage
