

Sunnyside

C. H. CURTISS & CO.
HARDWARE,
PLUMBING & TINNING.

STEAM, HOT WATER AND HOT AIR HEATING.

Tarrytown, N.Y. Jan. 28, 1904.

Mr. W. H. Mersereau,

Dear Sir:-

The writer did not reach home early enough last evening, to write you concerning the shower. We called at J. L. Mott Iron Works about a shower, and have also been down to Sunnyside to look over the situation. J. L. Mott advise suspending corner of curtain rod from ceiling, -as shown in their Plates No. 2045-R. or 2113-R., instead of having a post, which they claim will be more secure, at the same time not ^{be} at all in the way. As the bar has to be made to fit the place, the price would be practically the same for this outfit, as for Dinneen & Cook.

That is, a Fig. 24I-R. Shower, with a canvas curtain and rod, as described above. The present shower has a mixing chamber, and no doubt this is what Mr. Irving refers to in saying he did not want it. If you think this will answer, we will order same at once. The height of the tile wainscoat around present shower on 2nd. floor is 6' 1".

Yours truly,

C. H. Curtiss & Co.

C. H. CHRISTIAN & CO.

STATIONERS & PRINTERS

215 N. 3rd St. St. Louis, Mo.

Jan. 28 1904.

Mr. W. H. Harrison,

Dear Sir:-

The writer did not reach home early enough
last evening, to write you concerning the shower.
J. I. Most Iron Works about a shower, and have also been down to
Sulphuride to look over the situation. J. I. Most advise changing
the corner of certain rod from ceiling, as shown in their plan
No. 2045-R, or 2115-R, instead of having a post, which they claim
will be more secure, at the same time not at all in the way. As
the bar has to be made to fit the place, the price would be practically
only the same for this outfit, as for Dinning & Cook.
That is, a No. 241-R Shower, with a canvas curtain and rod, as
described above. The present shower has a metal chamber, and
no doubt this is what Mr. Irving refers to in saying he did not
want it. If you think this will answer, we will order some at
once. The height of the tile waistcoat around present
shower on No. 1 floor is 6' 1".

Yours truly,
