

Dear Sir,

Stratsberg 5th July 1811.

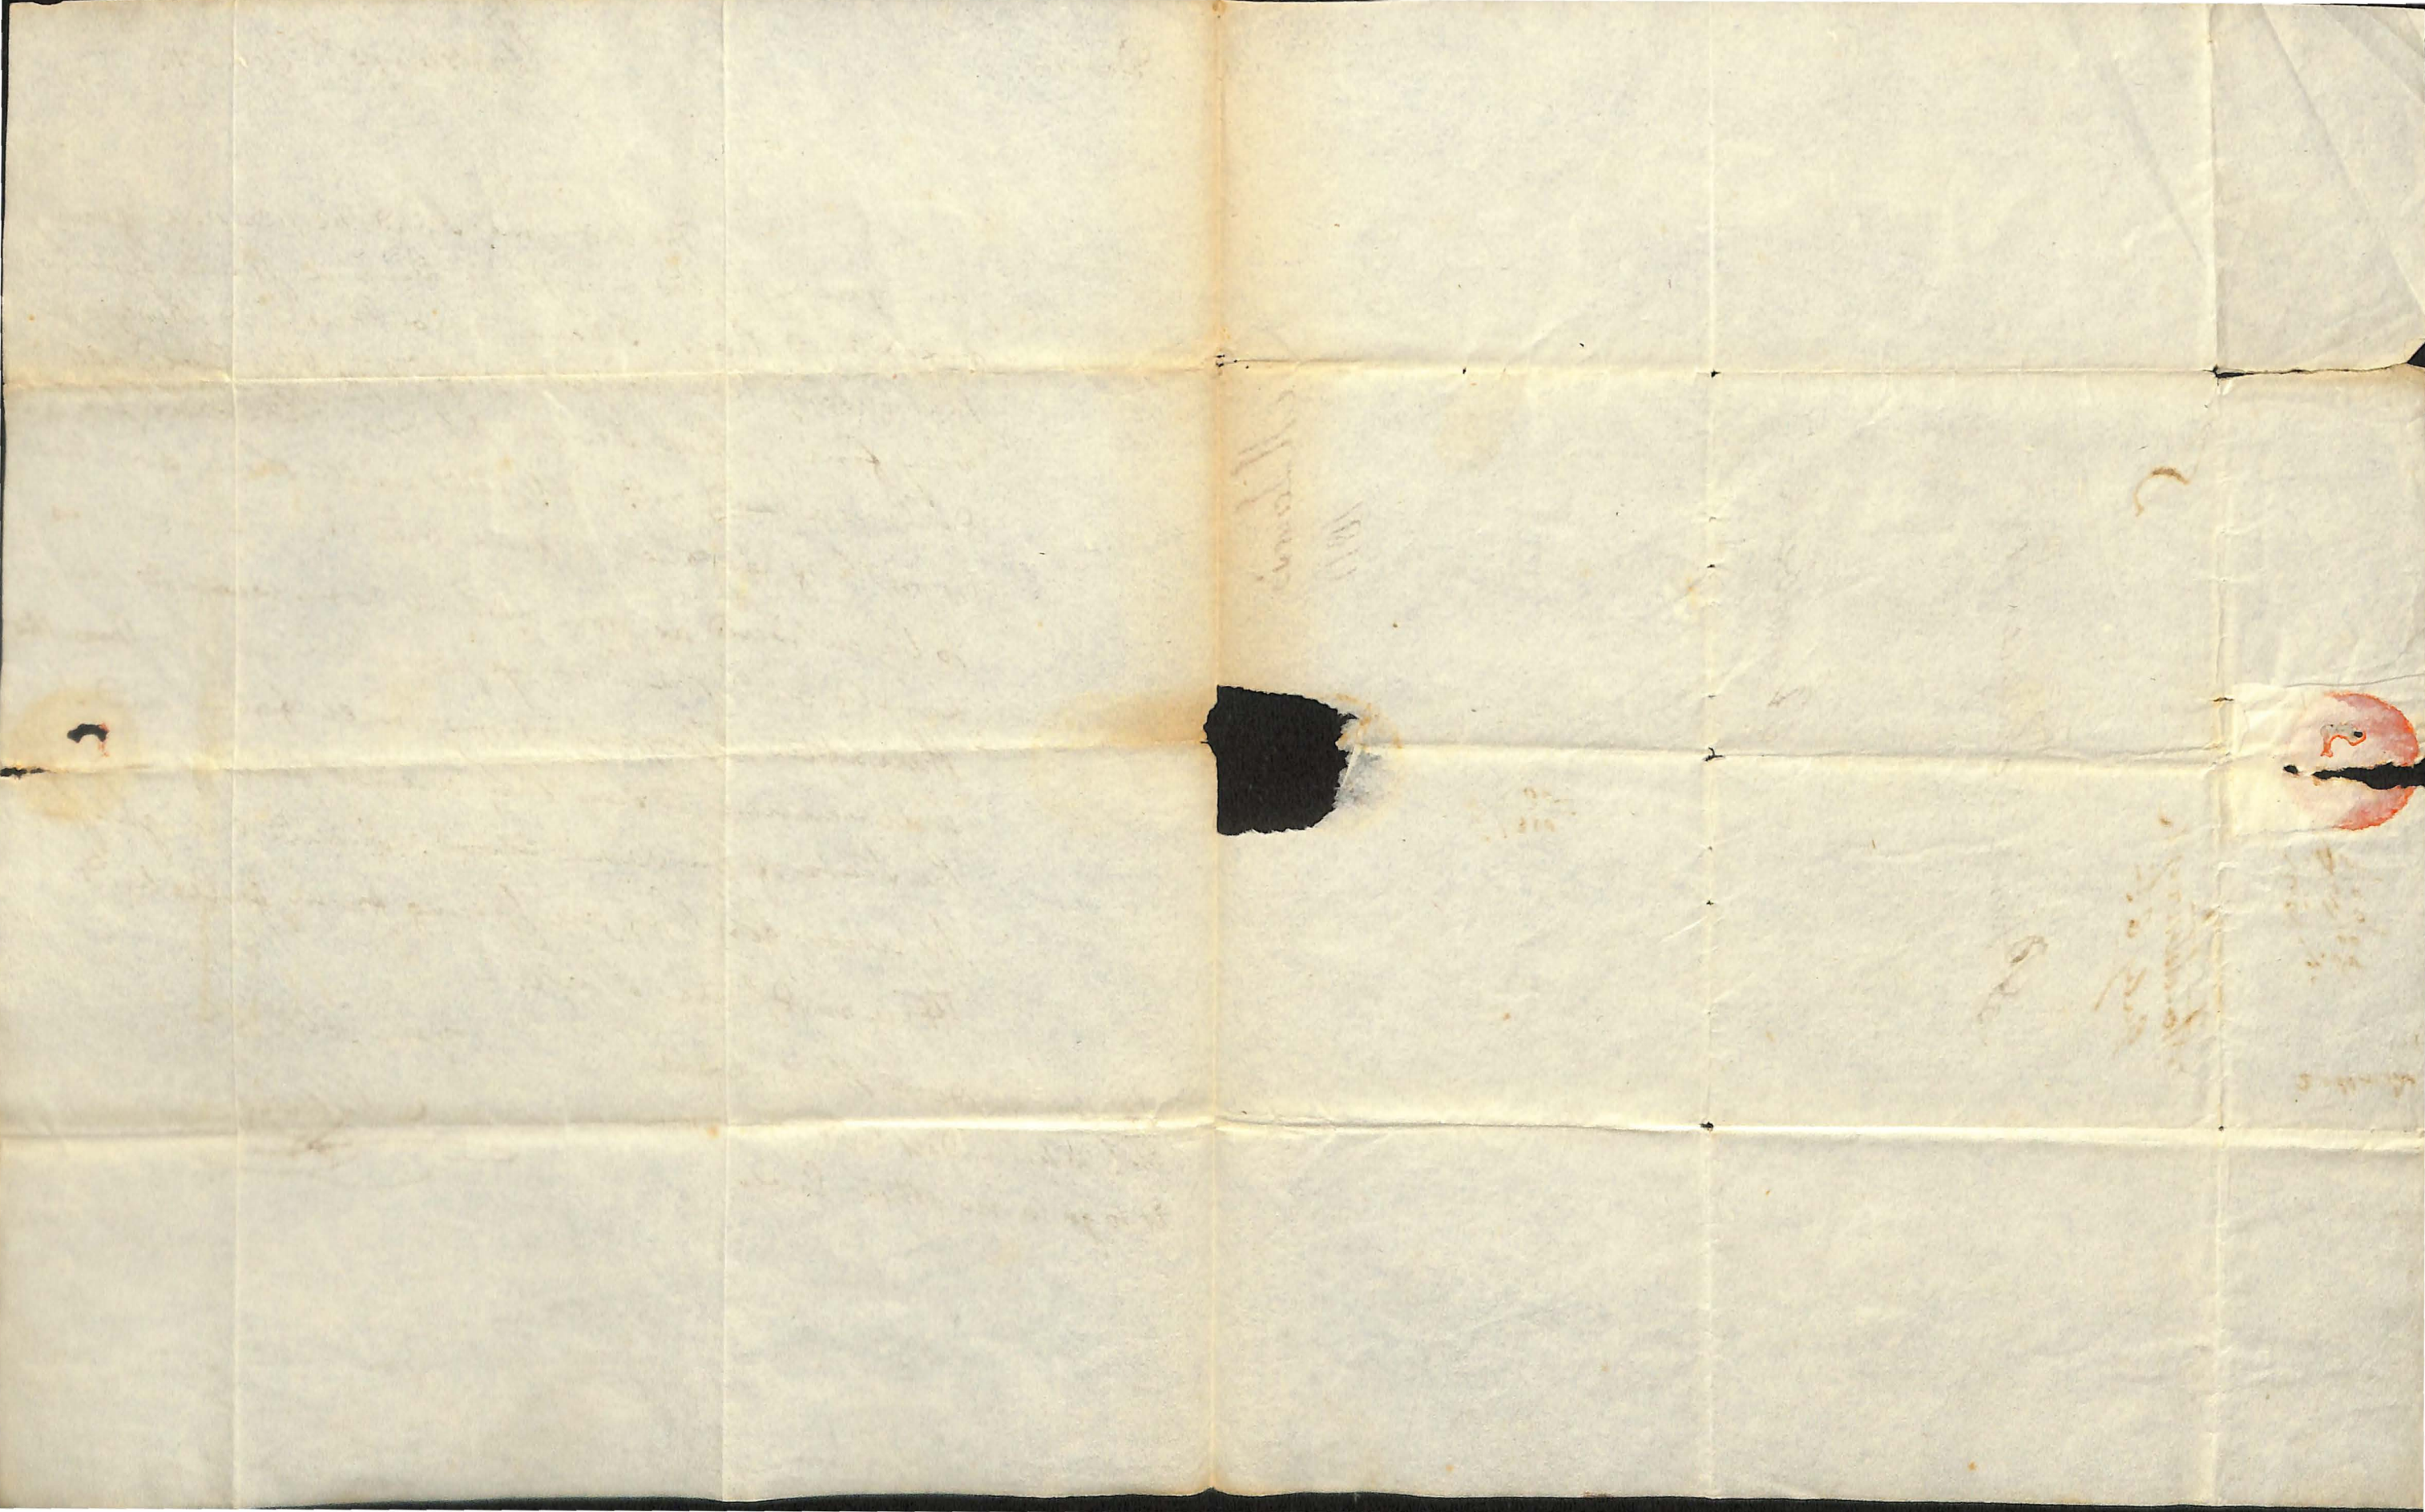

The last time I had the pleasure of seeing you, you expressed a wish to have a small flock of mixed-breed Ewes. I have two or three and thirty of that description consisting of $7\frac{1}{2}$ $7\frac{1}{4}$ & $7\frac{3}{8}$ Ewes, all very fine, which I will let you have at six Dollars a head, and will lend with them, for the month of October, a full bred Ram. The Ewes to be delivered as soon as they have weaned their lambs, and the money payable at six months thereafter. They are at my mill farm, and I will venture to say they are as fine as any in the State of the same blood. Indeed I might say superior, for they are sprung from full bred Highlandshire Sheep.

your O^bl^d Serv^t.

M Lewis.

If you accede to this proposal,
it is to be understood, the Ram
is to go to no other Ewes.
