

Croton April 25 - 1846 -

Wm Miller.

The old Gentleman is very ill. I almost despair of his getting over this illness. I therefore cannot leave him, I wish you as soon as the things arrive with Hunters Sloop to fetch them home, perhaps you may get Mr Jones's waggon and fetch them on or with the Co Cart if you can get another pair to put before yours - I left some grafts capped on in a cruet jar in one of the Rooms (but which I do not recollect) which I wish you to graft on the tree in the Dooryard - graft a many limbs of it you can - you may plant (if you have not already ^{some} it) two more rows of Geas of those I showed you on the side board - If Johnny was here, he might be very assistant to help the Old Gentleman as he requires constantly two to be with him and therefore I wish he would come down, he can ride the Young Horse --

The General's Sorel Horse was stolen last night out of the stable here -

you had better lay some branches on the rows of Geas to prevent the fowls scratching them up and let Ameyah keep them out of the Garden -

Your friend
