The hallowed halls will always live  
Though time passes on;  
The memory of the joy stays near  
Though all else is gone.  
Truth and guidance has brought us here  
Through the years the hands have wrought us,  
High the standards who have taught us,  
  
Through the years we have traveled over  
Life's every hill;  
Yet thinking of old E. H. S., our hearts  
With rapture thrill.  
Those we loved are gone forever,  
New ones walk old paths together,  
New or old, it changes never,  
Our Dear old E. H. S.

Believe me, all this work  
can really get the best of a  
guy!!!

Teachers take some time out at  
EHS to discuss classes and studies!!!

## *A Look*

Naturally the study-  
halls at EHS are used  
strictly for the job  
of studying.

The halls at Eastern are quite peaceful at times. But not at other times. Right?

Believe it or not - some of the students still get lost at EHS. (it's a little hard to believe, isn't it?)

*at EHS*

Look at that line!!! The students have to get their daily go power from the cafeteria.

MR. BRADY SIMS  
(1902-1967)

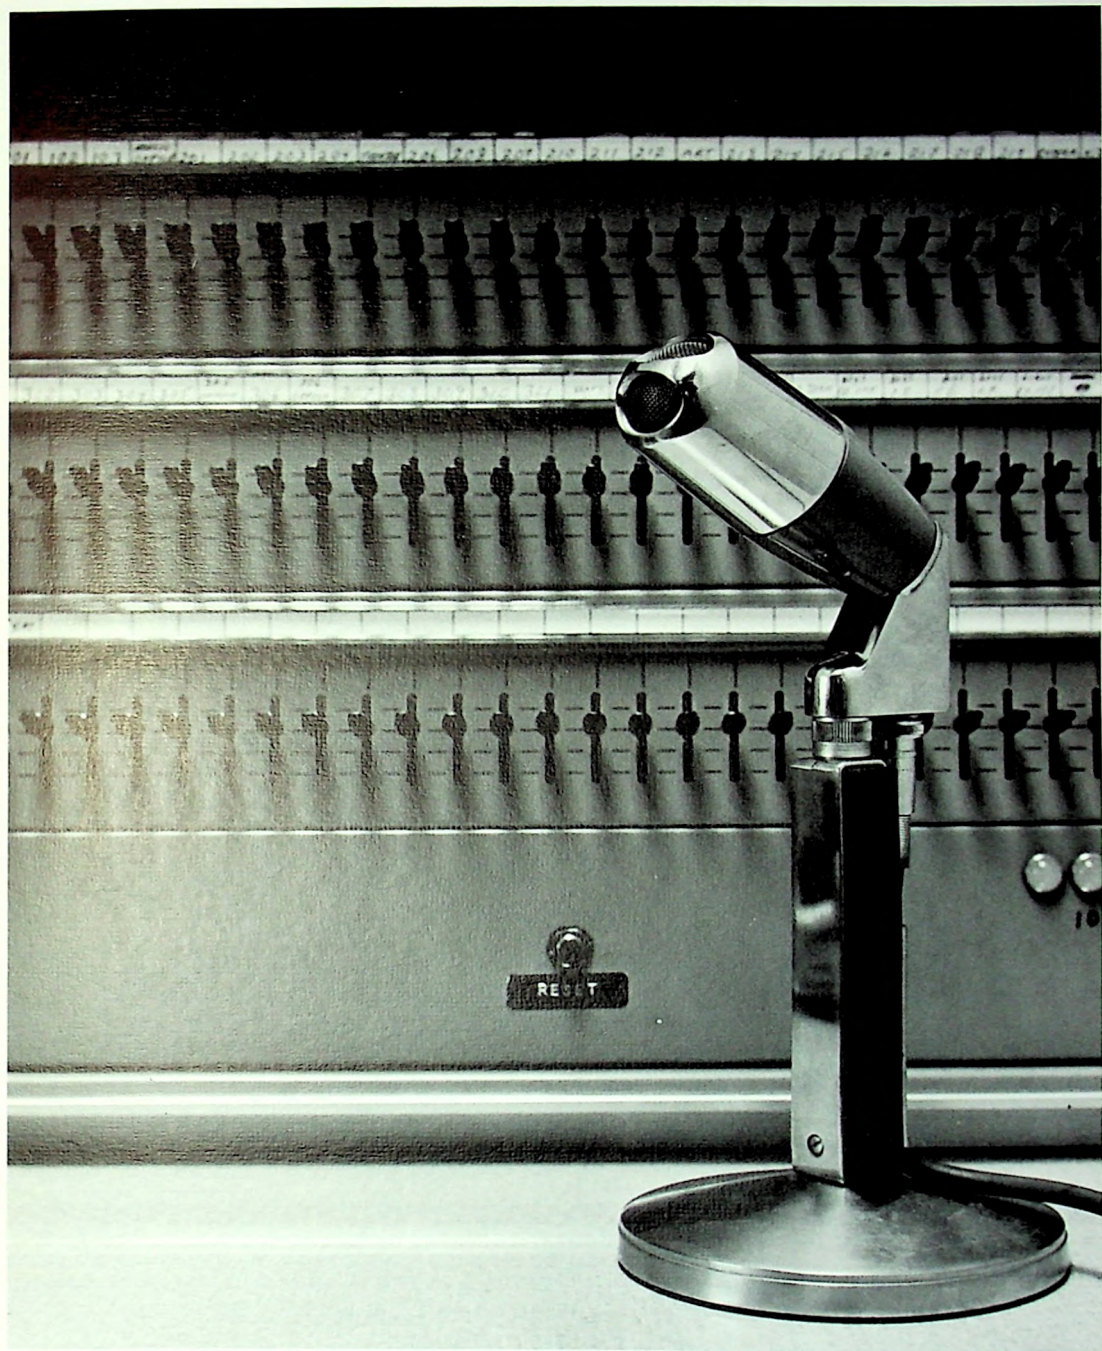

Mr. Sims was born in Glen Falls, West Virginia on October 1, 1902. He was the son of the late William B. and Mary E. Sims. He had a family of seven brothers and sisters. Mr. Sims attended public schools in Harrison Co., and was graduated from Victory High School in Clarksburg in 1921. In high school he was active in football, basketball and baseball. Brady Sims attended West Virginia University and was graduated from Salem College in 1925 with an A.B. Degree. He was active in sports; being a three-letter man.

Mr. Sims taught at Spencer, West Virginia and Nutter Fort, West Virginia. He also taught and coached athletics in Clarksburg for ten years where he was League Championship Coach in 1932, and at which school he was Principal in the school year of 1933-1934. Before resuming his teaching career, Mr. Sims started working for the Hazel-Atlas Glass Company in Clarksburg. Here he started the personnel department and served twenty-three years as the director of that department.

After some additional courses at Salem College, he returned to teaching in 1962 in the Eastern Local School District. Mr. Sims took an active interest in local activities and politics and was a former manager of the Clarksburg City Council. He had been a former Superintendent of Playgrounds for the City of Clarksburg. He taught Sunday School in North View E.U.B. Church for twenty-seven years and later in Central Christian Church in Clarksburg, where he was a member at the time of his death.

He was married to Nora Alonso of Clarksburg, West Virginia, June 17, 1932. Mr. Sims had one son, James Brady Sims, born in 1935 and died in infancy.

Mr. Brady Sims was a very dedicated teacher here at EHS where he taught English and social studies. He was very active in all community affairs and was liked by everyone. The community, as well as the school, was saddened by his death which occurred shortly after the 1967 school year. We, the yearbook staff, would like to dedicate this 1968 yearbook in memory of Mr. Brady Sims.

ADMINISTRATION

LOCAL SUPERINTENDENT

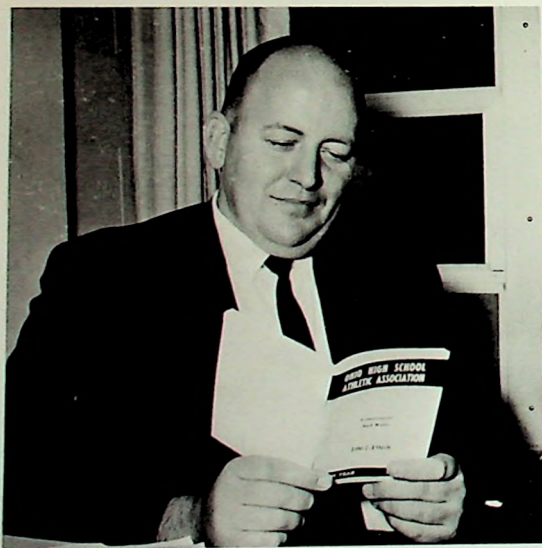

To the Graduating Class of 1968:

First, congratulations on a job well done. But remember, education is a continuing process; it does not end with a high school diploma. Just as in the building of a house, the foundation is the first and most important part, so is your education.

You now have a good foundation on which to build, how elaborate you make your house depends on you. Since the future is what you make it, you should aim high.

It has been my privilege and pleasure to be associated with this class. Again, congratulations and may your fondest dreams and highest aspirations be attained. Remember to always put your trust in God, for if he be for you, who can be against you.

GEORGE PENDLETON

PRINCIPAL

To the Seniors and Eagle Staff:

May I say congratulations to you. The seniors deserve congratulations for completing high school; the Eagle Staff for the fine effort in producing a yearbook.

Our objective here at Eastern is to develop clear-thinking individuals who can go out and function properly in the society in which they live. I would hope your ability to think clearly stays with you long after you have forgotten many of the rules and formulas you studied in class. A parrot can learn to quote a phrase; the truly educated person can think and reason.

I would like to wish you the greatest success you are able to achieve in the future, and may you always have fond memories of your years at Eastern High School. In closing, I would ask you to hold the ideals of General Douglas MacArthur as a guide: God, Honor, Country.

THE NATIONAL ORGANIZATION FOR BOYS      STUDYING VOCATIONAL AGRICULTURE

Left to right: Larry Cantrell, Eric Blair, Dennis Blakeman, Bill Hale, advisor, Paul Dixon; Marty King, Delbert Reisinger, Steve Jenkins, Roger Adrian, Tim Hines, Bill Strong, Tim Wicker, Tony Blanton, Bob Higgenbotham, Rick Johnson, Garland Gillman, Leslie Staker, Oris Veach, Carter Ison, Roy Manning, and Coy Montgomery.

The Vocational School was founded in 1957. The school offers four vocational subjects to the curriculum.

Cosmetology training includes all phases of the field of beauty culture: shampoos and rinses, scalp treatments, manicuring, haircutting, and additional related skills. Practice on mannikins and other students begins the practice experience. At the completion of training, students are prepared to take state licensing exams.

Industrial electronics includes the fundamentals of electricity, magnetism, vacuum tubes, semi-conductors, transistors, and complex equipment that is used to provide information about and the control of machines. Radio control systems, automatic control devices, electronic heating devices, and magnetic tape for recording and reproduction are generally included in the course.

Machine trade prepares the student for employment as an apprentice machinist. Related instruction is presented in classroom activities and skills are developed through practical shop experience.

In the related portion of the training, the student studies blueprints, mechanical drawing, shop practices, trade terminology, metallurgy, shop and machine safety, and types and hardening of metals.

Practical shop instruction includes learning of proper speeds and the operation of machine tools.

#### COACH'S MESSAGE

We had a good basketball team this year. Although we were not the best team in the state, we were among the top teams in the state. All five of our regular season losses were to top state-ranked teams. Our inside attack was exceptionally good. Our guards did a fair job considering the amount of experience that they had.

I would like to encourage those boys who will be returning, to work very hard for next season. To you seniors, I sincerely hope that your athletic experiences at EHS have been rewarding and will in some way prove helpful to you in your future endeavors.

You can't stop him . . .  
so let him shoot.

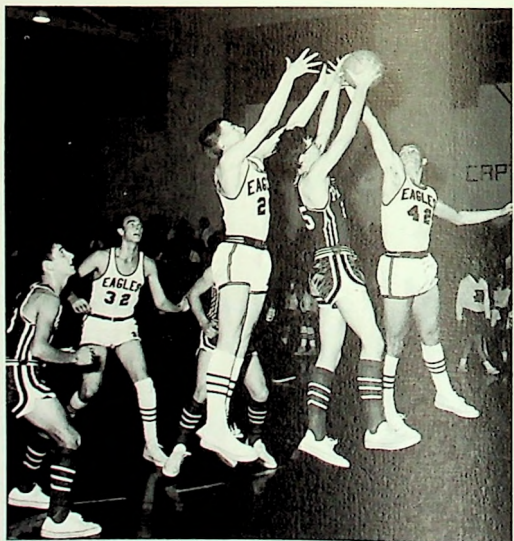

Borden is going up for two more.

Two against one,  
so you might as  
well give up.

Boys, Nance  
is the  
"King" of  
the boards.

## *Eagles On*

Hamilton takes a rest at the charity stripe.

Two more for the shooting star of Eastern.

## *The Move*

The boys take a time out to listen to the coach's instructions.

Wells is up above to get another rebound.

*Progress  
Is A  
"Two-Way  
Street"*

THE GROWTH of any company depends, to a large degree, upon the community in which it is located and upon the attitude of the citizens of that community. For it is from that community and from those citizens that a company must gain strength, build its work force and develop its future. Thus, the more understanding the community is toward its industry and its problems, the more cooperative and loyal the citizens who comprise its work force, the better the company's chances for continued growth and expansion.

ON THE OTHER HAND, the growth of any community and the development of a bright future for its citizens depend equally as much upon the day-in-day-out successful, profitable operation of its industry. For from that industry stem jobs and paychecks today, employment opportunities for tomorrow, local purchases, community service contributions and vitally essential tax dollars.

OBVIOUSLY, THEN, the growth of a community and the growth of industries within that community are inseparably bound together, one dependent upon the other. And progress becomes a "two-way street".

LOOKING BACK, Detroit Steel is proud of the contributions it has made to the betterment of the Greater Portsmouth community and to the benefit of the citizens as it has pursued an unbroken 15-year course of growth and expansion . . . over \$150,000,000 invested to provide one of the most modern, competitive steel mills in the U. S. . . and an annual employee payroll that is currently running around \$24,000,000.
