New Look

Chamber members and their helpers, 60 strong, have volunteered their help in renovating the old fire station for new Chamber of Commerce office building. Here Tom Chappelle, Bernie Szopa, Frank Ramey, Ed Ellis, Richard Malcolm, Rudy Koeth, John Pearce, George Shafer, and Mike Kalinich lay blocks. The building, when completed, will be Colonial style, faced with antique brick and will have a panelled interior. Shrubs and plantings are planned for the grounds. The work is scheduled for completion in mid-October and will be the first beautification-of-The-Commons-effort on the part of Chamber members. Kalinich is heading the remodeling project committee. Assisting on the committee are Shafer, Jack Ashworth, Fred Dewey and 15 Chamber trustees.
