Other nights one show at 8:00.

Soft Ball Dope

The Baptists defeated the Christians 8 to 7 and the Methodists defeated the Presbyterians 12 to 4 in Friday night's doubleheader in the Harrodsburg Church League softball play.

In the first game, the Baptists secured 8 hits to make their 9 runs while only one error was charged against them. The Christians were charged with 9 errors, which cost them the game. They secured 12 hits. Batteries were: Baptists—Royalty and Bottoms. Christians—Pierce and J. B. Shewmaker.

The Methodists tripled the score against the Presbyterians in winning 12 to 4. They had 3 errors chalked against them to 7 charged against 6 for the losers.

TUESDAY NIGHT'S GAMES

The Presbyterians defeated the Christians 7 to 6 and the Baptists were victorious over the Methodists by the score of 7 to 2 in Tuesday night's double-header of Church League softball play.

Pierce and J. B. Shewmaker were batteries for the losing Christian team with Dunn and Gatchell as batteries for the victorious Presbyterians. Hatchett and Foster were batteries for the Methodists with Royalty and Bottoms as batteries for the Baptists.

BANKING SYSTEM SHOWS PROGRESS

State Bank Resources Grow
More Than Three Billion
Dollars in a Year

NATIONAL BANKS GAIN

American Bankers Association
Gives Details of Banking
Institutions and Notes
Stronger Condition

NEW YORK.—Continued improvement in the condition of state chartered banking institutions, with an increase of more than three billion dollars in a year in total resources, is shown in a report just issued by the State Bank Division of the American Bankers Association.

The report was prepared by the division's Committee on State Bank Research from data furnished by state banking departments and parallels data issued by the Comptroller of the Currency for national banks which show similar improvements.

"The combined resources of 10,473 state supervised banks were \$35,724,723,000 as of December 31, 1935," the state bank report says. "Total deposits amounted to \$30,526,920,000. Total loans and discounts stood at \$12,430,404,000 and total investments were \$14,170,421,000."

A year previous, tables in the report show, there were 10,614 state supervised banks, with combined resources of \$32,650,203,000, total deposits of \$27,297,959,000, loans and discounts of \$13,060,033,000 and investments of \$12,582,325,000.

Classes of Institutions

Of the reporting state banking institutions on December 31, 1935, 82% were commercial banks, the report states, 9% trust companies, almost 9% stock and mutual savings banks and less than 1% were private banks. The report adds:

"The parallel upward movements of deposits and total invested funds of total state supervised banks during the years 1934 and 1935, after declines in these items in 1932 and 1933, are indications of definite steps toward recovery in banking."

"Based on figures assembled for total state supervised banks on resources and liabilities as of December 31, 1931 to 1935, it is noted: (1) that deposits in 1935 rose approximately 12 per cent over the previous year, as compared with an increase of about 9 per cent in 1934 over the year 1933 and decline of 7 per cent and 12 per cent in 1932 and 1933, respectively, from the preceding years of 1932 and 1931; and (2) that total invested funds increased by approximately 2 per cent in 1935 and also in 1934, while they had decreased by 9 per cent in 1933 and by 11 per cent in 1932."

Analysis Shows Stronger Positions

In a survey and analysis of earnings and expenses of state banks doing a commercial business, it is brought out that in a majority of states they have increased their earning ability during 1935. On the basis of data covering 7,923 banks in 42 states, the report says:

"The most significant fact to be pointed out is that new profits of state banks—after deducting charge-offs on loans, investments, etc., and adding recoveries—were shown in 37 of the 42 states which reported in 1935, in comparison with net profits in only 11 of the 35 states reporting in 1934. Measured in terms of dollars per each \$100 of invested funds, net profits in 1935 ranged between \$2.40 and \$1.10 per \$100, with 19 states showing profits of \$1.00 or over, per \$100; while in 1934 net profits did not exceed \$1.20 per \$100, and only three states showed profits of \$1.00 or over."

The report contains voluminous tables showing the resources and liabilities of all classes of state chartered institutions and detailed analyses of earnings and expenses by states and of insured commercial state banks grouped by size of banks.

Bankers Help Farmers

The conviction that 4-H Club work lays the foundation for sound citizenship and intelligent farming influenced a New York City bank executive to contribute \$500 to the Agricultural Committee of the State Bankers Association, to further 4-H Club activities in the state. "I am convinced that the work is so worthy, and is being so well handled that it should interest those who believe in building sound citizenship, as well as intelligent farming for the future," he said.

Unusual prominence was given this past year to agricultural work by the Tennessee Bankers Association. The Agricultural Committee report reveals hearty cooperation between bankers and extension workers. "Key bankers and county agents have been in closer contact than ever before," it says.

Georgia bankers have given both moral and financial backing to a Marketing Project sponsored by the Extension Service of the College of Agriculture, and activities the past year showed significant results. The phases of the Marketing program emphasized in the year's work are: The retail curb market; roadside marketing; miscellaneous marketing (suited to the locality); bartering (exchange of commodities or services with neighbors); standardized canned products for sale prepared in homes or canning centers.

REPORT of SALE

At Mercer County Stock Yards
Saturday, August 15th, 1936

All the usual services will be resumed Sunday with the pastor preaching at both morning and evening worship.
Preaching at Mt. Pleasant church in the afternoon at 2:30.
John W. Carpen, Pastor.

ONE WAY RIDE FOR MOURNERS

Three Fayette county women were at a funeral the other day. Burial was to be in Ohio, and the Ohio undertaker who was in charge said he had room in his car for three people, if anybody wanted to go. They said they would. They forgot to ask him whether he was coming back to Lexington after the burial, and he didn't say anything about it. Undertakers are used to taking people on one-way rides, anyway! The upshot was that they landed in Ripley, Ohio, without any way to get home. They didn't even have any money with them, not having anticipated any need for cash at a funeral. They hitch-hiked to Maysville, where a former Lexingtonian, J. Sherman Porter, is now running a newspaper. He let them have enough money to get home on a Lexington Leader.

BOOZE, BEANS AND BOOKS IN TRUCK SMASH-UP

Three transfer trucks, loaded with booze, beans and books, figured in an early morning accident at the Piner road on the Dixie Highway, near Williamstown, Grant county, Wednesday morning.
Two of the trucks collided and one of them ran into an approaching one. One truck was completely burned, the second had one side burned off and the third was badly wrecked.

It is so much better to say, "I did," rather than "I am sorry I did not." Attend the Scott sale Thursday, August 27th at 1:30 p. m.

BEAUTY IN DISGUISE

A census reveals the fact that there are 2,500 kinds of perfume, 1,200 varieties of face powder, 250 compacts, 700 talcum powders, 50 rouges, 303 cold creams, 1,100 other toilet creams, 164 dental creams, 212 hair tonics and 232 shampoo preparations.

Named for Cry

The Brazilian al or three-toed sloth (so familiar to crossword puzzlers) is so named in imitation of its cry.
