## OXFORD GROUP TAKES CASTLES FOR MEET

Two meetings, at Svendborg, Denmark, attended by 6,000 persons each, held a two-day National "house party" of proponents of the Oxford Group Movement sponsored by Danish leaders last week.

It will be recalled that members of the Oxford Group held a "house party" at Beaumont Inn several years ago, and one of the meetings at the United Presbyterian church was open to the public, the edifice being crowded at the session.

Included among the members at the Denmark meet were Dr. Frank N. D. Buchman, founder of the movement also known as "Buchmanism," and twenty-four other Americans and six Canadians. Twenty countries were represented at the convention.

Four temporarily unoccupied castles and several steamers were used to house the visitors. A group of 1,000 cyclists arrived from Copenhagen to increase the attendance which reached a total of 20,000.

## Odd Beliefs

The world still possesses people who believe that dwarfs and midgets are children who never grow up, tribes that cannot "see" or understand a photograph, and individuals who are under the impression that they can stimulate their ability to sing by drinking water in which phonograph needles have been immersed for several days.

—Mrs. H. C. Steele, Olympia, Wash. In Collier's Weekly.

## Gods Invited Out

In early Roman days when a Roman general sat down before a city to besiege it, the priests used to invite the guardian gods of the enemy city to leave it and come over to the Roman side, assuring the gods that they would get better treatment and much more respect by the Romans if they did so.

## Lipton Once Street Car Man

rachtsman, once ran a street car in New Orleans for a living.

## VERDICT DELAYED PENDING ADDITIONAL TESTIMONY

Roger Gillispie, Negro, was tried before County Judge Charles T. Corn Monday morning on a charge of reckless driving but the verdict was delayed pending the testimony of a neutral witness who could not attend the trial Monday.

The charge against Gillispie was sworn to by Thomas Pulliam who blamed Gillispie for an automobile accident Saturday night, March 28, in which the two cars sideswiped on Lexington avenue near the city limits. At the trial each man claimed

the other was at fault and each testified that the other was driving about 50 miles an hour as compared with his own alleged speed of about 25.

## To Drop In to Drop Up

Idiomatic phrases in the English language are the despair of foreigners; the phrases so rarely make sense if the words are considered separately. The idiom, "to drop in," meaning to happen in, as for a chat, is well established, and is an accepted part of our speech. "To drop up" is not generally accepted, possibly because of the utter incongruity.—Literary Digest.

"The Ford V-8 uses less fuel and oil for the power it gives than any other car we have ever made

AND ITS UP-KEEP COST IS THE LOWEST

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better. For, the fact is, it's way down the list.

The big items of car economy are low first cost, low up-keep cost and low depreciation. Savings here can make a great deal of difference in cost per mile. Gasoline mileage is more of a talking point than an economy factor.

Check up and you will find that the difference between 17 and 19 miles a

gallon is less than \$10 for a whole year's average driving (8400 miles at 18 cents a gallon). Here are the big items that make the Ford the most economical car:

More value for every dollar you pay.

Lower cost for repairs and service.

Long life. Slow depreciation.

Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. No other car under \$1645 has a V-8 engine. No other low-price car has Center-Poise Riding, safe, sure mechanical brakes and Safety Glass all around at no extra cost.

**\$25 A MONTH** WITH USUAL LOW DOWN-PAYMENT BUYS ANY NEW FORD V-8 CAR ON NEW UCC 1/2% PER MONTH FINANCE PLANS.

## THE WHEELS

Go "Round and Round"

And they wear out here—and they wear out there. But they don't wear out nearly as fast if you have on GENERAL TIRES—built for hard, consistent, day-after-day service. You'll be honestly surprised how much more mileage they give you.

PREPARE FOR SPRING DRIVING CONDITIONS

Spring is in the air. Days are warmer—skies are brighter—and the old bus is pretty tired of luging around all that dirty winter oil that is beginning to clog up. Give your car new pep by changing to heavier oil.
