

Playground Is Well Patronized

Sufficient Money Has Been Raised For A Start And New Equipment Will Be Bought Soon.

Having been in operation over a week now, the new playground on the high school campus has had an ever increasing attendance and has left no doubt in the minds of the promoters of the great need for a supervised playground for the young people of this city.

Although no definite plans have been made as to the future operation of the recreation center, immediate plans are going forward in a hurry. A great deal of new equipment will be ordered within the next few days and many things such as swings, seesaws, slide, etc. are soon to be built.

The community playground was sponsored at first by the American Legion post here but now other organizations and individuals have become interested and are to be a big help in making this really a community enterprise.

Enough money has been raised to buy a lot of the equipment that is necessary for successful operation. A benefit softball game between the star players of the four church teams here and a team from Danville is being planned for Wednesday night, July 1, the proceeds to go to the playground fund. Curtis Park has been chosen manager of the all-star team.

Except on the very hottest days last week the crowds of children at the playground have averaged well over one hundred. They have been kept busy playing softball, volleyball, tennis, and other action games, hearing stories, etc. Their activities will be even more varied after the new equipment is added. Prof. J. K. Powell, who has been employed as supervisor is giving his entire time to the work and is assisted by a staff of NYA workers whose salaries are paid by the government.

All children between the ages of 6 and 16 are invited to the playground from 9 to 11 in the morning and from 2 to 5 in the afternoon every day except Sunday.

NOTICE!

All Occupation License (on soft drinks, cigarettes, poolrooms, picture shows, ice factory, tank wagon, etc.) expire June 30th. If not bought by that day, will be penalized 20 per cent. Procure license at County Clerk's office. Garnett Dean, C. C.

Photographs Worshipped

Nearly every family, firm, institution and temple in Japan regards its photographs of Emperor Hirohito with an almost fanatical reverence. Not only have large ransoms been paid for the return of stolen pictures, but many persons have perished in fires while attempting to rescue them.—Collier's Weekly.

RYTEX STATIONERY

New Samples On Display

Engraved Wedding Announcements... in the new Coral White Vellum... 25, including Plate, Stamping, Inside and Outside Envelopes, Tissue and Inserting, for \$6.85. Engraved Wedding Invitations: \$8.90. Washington Has a Rock

Named for Gen. Braddock

Like Plymouth, Washington has its rock, a rock which for years lay buried under the surface on the site of the Naval hospital, says the Washington Star.

The rock, known as Braddock Rock, was the landing place of General Braddock, for in those days the Potomac river flowed deeply over that section of the Capital.

Braddock, seeking a place to camp for the night, set foot on the rock in reaching shore, and the name of the rock, as a natural consequence, followed.

Braddock's camp, his first on his trip to the Ohio, gave the section now occupied by the unused portion of the Naval hospital the name of Camp Hill.

The Chesapeake & Ohio canal entered the Potomac near the general's landing place. The dirt dug from the canal was piled over his camp and, consequently, over Braddock's Rock.

Back in the early days of the American participation in the World war, existence of the rock was discovered by a historical society and a search was started for the rock. Subsequently, it was found 8 feet beneath the surface, in the open court of H building at the hospital. A brick wall and an iron railing surround the historic spot where the British general landed.

British Sailors' Slang

Covers All Conditions

Sailors have a unique vocabulary, observes a writer in Pearson's London Weekly.

"Barrabas" or "Scotland Yard" gives warning of the approach of a regulating petty officer. A "Bow Street Runner" is his messenger. An officer's marine servant is known as "Jeeves" or "Flunkey," the signalman is addressed as "Bunting" or "Rag Tearer." The "Idle Rich" are the engine-room artificers. "Jimmy" is the senior lieutenant.

The culinary department has its own particular phraseology. "Grave-chaser" or "Pantry" is the affectionate term applied to the cook. A "Prawn Smash" means bacon and tomatoes, sausage rolls are "Dogs in Blankets," while "Two Airships in a Cloud" means that the menu includes sausages and mash.

The quarter deck, part of the vessel reserved for officers, is known as the "Holy of Holies," and if you "Score a Rattle" or are "In the Jug" in the course of time you are due to appear before the captain as a defaulter.

The "Banner" is the ship's ensign.

Early U. S. Mail Coaches

On September 3, 1806, three commis-sioners appointed by President Jefferson to lay out the Cumberland (or National) road met at Cumberland, Md., to begin their work. This was the first federal project for the improvement of internal transportation and communication. By 1818 United States mail coaches were running over the road to Wheeling, then in Virginia. Eventually this highway was built westward through Ohio, Indiana and Illinois to St. Louis, Mo. Of it one writer says: "It carried thousands of population and millions of wealth into the West; and more than any other material structure in the land, served to harmonize, if not to save, the Union."

Mahogany

American mahoganies have a straight grain and more mellow texture and are found in logs of long or wider cuttings. They are a rich, golden brown in tone. African mahogany logs are enormous, sometimes measuring from 14 to 36 feet long and from 3 to 5 feet thick. The wood is of a pale, golden brown color and is lighter in weight, with slightly larger pores, than the other types. Also, it is more lavishly figured. Therefore, it furnishes three-fourths of all mahogany veneers.

Sugar Cane Culture

The cultivation of the sugar cane was introduced into the region now embraced in the United States by some Jesuits in 1751. They planted it near New Orleans and in 1758 a sugar mill was built. The first sugar was made in 1764, but the industry never could be brought to complete success. When Louisiana was handed over to Spain in 1763 sugar making ceased. It was revived in 1795 through the efforts of Etienne de Bore, and from that time it has grown steadily into vast proportions.

Coyotes Prolific Breeders

The coyote is an animal of the open country and likes semi-civilization. They are prolific breeders and unless control measures are constantly in effect they are likely to overrun the country. While they do not bother cattle raisers they are a real menace to sheep. They would rather pull a sheep down for food than any other animal, and sheep, being among the most defenseless of all domestic creatures, are easy prey.

Companion to Planetarium

A "cosmosarium" is a kind of companion building to a planetarium. A planetarium is designed to present views of the heavens as seen from the earth, while a cosmosarium is designed to present a view of the earth as seen from the heavens. In the latter the earth is presented as a globe suspended within a spherical-shaped auditorium and appears as if seen from a distance of 20,000 miles away.

HEROES OF AMERICAN HISTORY

HE LAUGHED AT LIFE!

He was born in a little Missouri town, Hannibal, lived in the Far West, in New York and in Europe and worked as a river pilot on the Mississippi. In taking soundings of the river bottom the pilots called out "Mark Three, Mark Hall, Mark Twain," etc. The words "Mark Twain" became his pen name. He loved to speculate and was constantly investing in hair-brained schemes—gold mines, old farms, printing machines and so on. His famous "boya" stories, "Tom Sawyer" and "Huckleberry Finn," are enjoyed by young and old alike.

MARK TWAIN
(SAMUEL L. CLEMENS)

Famous as a humorist and always laughing, yet there is a bitter strain in his humor, and he did not enjoy life. A lady once kissed his hand and said, "God must love you!" "I hope so!" he answered, and added later, "I guess she hasn't heard of our strained relation-ship!"

May Not Sell So Big A Helping

Sales Tax On Ice Cream, Soft Drinks, Etc., May Be Absorbed By Jobbers and Manufacturers.

The new retail sales taxes that will soon go into effect may be arranged so that neither the inconvenience nor cost of some of them will be visited upon the consumer. The State Tax Commission, which has broad regulatory powers under the new act, is seeking to arrange it so that the retailer and wholesaler will absorb, for instance, the 28 cents a gallon on ice cream; and so that the cone or helping at the counter may be a bit or a dip smaller than now, but at the old price. The same may be done at most dealers in the matter of soft drinks and candies.

Federal Ransom

The United States has paid a total of about \$35,000,000 in ransom for American captives. This ransom or tribute money was paid to the Algerine pirates of the Barbary states on the north coast of Africa in the first decade of the American Republic's existence. Annual payments ceased only after the United States fought and won the Barbary States war, in which such famous commanders as Commodore Decatur, Rodgers and Barron took part.

Effect of Time

Soviet Russia shows its hatred for the former czars through the altered inscription on the statue of Alexander III (1845-1894) in the Square of the Revolution in Leningrad. Replacing the former honorary phrases are the words: "My son and my father were executed and I reap the harvest of immortal shame. I am standing here as a cast-iron scarecrow for the country which has forever thrown off the yoke of despotism."—Collier's Weekly.

Stone-Age Tomb Discovered

Excavations beneath a megalith, a monument of the late Neolithic period near Dunloy, County Antrim, Ireland, revealed the first complete intact prehistoric burial chamber to be found in the British Isles. The report was issued by Queen's university archeologists. In the ancient tomb were found traces of the cremation of human bodies.

Chinese Sturgeons Large

The largest fish found in Chinese rivers is the sturgeon, which reaches a length of more than 12 feet and a weight of 400 to 500 pounds.

Cape Hatteras
Cape Hatteras is a low extent of land on the North Carolina coast, forming a part of a sandbank. Here the coastline turns from northeast to due north and severe storms are frequent; so are shipwrecks. The first Hatteras lighthouse was built during John Adams' administration. This first structure of sandstone, 112 feet high, was completed in 1798. It was located more than a mile from the shore, but the Atlantic kept eroding and eating away the sandy hook that forms the dangerous cape until the old tower had to be abandoned in 1870.

Largest Plant Under Water
The largest plant and animal life is found in the sea. No land animals can compare with the whales, but it comes as a surprise to learn that the largest plant in the world is a gigantic seaweed. It beats even the giant trees of California for height and girth, frequently growing to a height of more than 400 feet beneath the surface of the sea at extremely deep sections.

\$10.00 FOR HUSBAND

(Cynthia Democrat)
W. M. Maffett and his nephew, Dunbar Dickey are interested in finding a husband for an Indiana woman so they can collect the \$10 bounty which she offers for information that will bring her one.

Mr. Maffett and Dunbar, who is the son of Mr. and Mrs. Howard Dickey, of Covington, were out fishing last week and the boy found a whiskey bottle in the stream near Indian Creek below the new bridge on the LLL Highway. He started to throw the bottle into the creek to shoot at but noticed the brown paper inside and opening the bottle found the following message:

"I am looking for a husband. I will give \$10 to anyone that will get me a husband. I am white and I want a white man.

With love and kisses.
Miss Geneva Shirley,
305 N. Walnut St.,
Medora, Ind."

The note was on ordinary brown wrapping paper and poorly written, although emphatic in expression.

800 Convicts To Share In Bonus

\$500,000 To Fall In Hands Of Prisoners at San Quentin Prison In California.

Nearly \$500,000 fell into the hands of more than 800 felons in populous San Quentin Prison, but the beneficiaries will be unable to spend it in pursuit of their foremost desire—freedom.

This sudden wealth, to come thru payment of the soldiers' bonus, will be credited to the individual accounts of the convicts. They will be allowed to part with it only a few dollars at a time, except in special cases.

Warden Court Smith announced that about 1200 convicts, one of them in condemned row, were eligible to receive the compensation payments but at least 400 had not applied for them.

The 400 expressed a desire to let their little fortune lie in the United States Treasury until they are released from prison.

The warden would not disclose the identity of the condemned "bonus" prisoner or the amount involved.

An accidental discovery by Dr. Sole, of Vienna, places human milk as one of the best blood stopping agents yet discovered.

DON'T PAY OVER 49c FOR MEDICINE ALL OF THIS WEEK

Attention To All Sufferers
Read This Carefully Then Act!

Don't miss this real opportunity if you are one who suffers. This entire week all persons can save 75c on medicine and also have the chance to prove for themselves that they too can be restored to vigorous health.

No matter how long you have suffered you now can only blame yourself if you pass up this golden chance. If you are now sceptic (having tried so many so called cures, with little or no results) take renewed courage, take INNER-AIDE and join the hundreds of thousands of happy, satisfied users. There is no catch to this coupon offer, but a straight forward offer of the makers of this largest seller in its field to convince the people of Harrodsburg and vicinity that those who really NEVER HAVE BEEN helped before by any medicine to discover for themselves the merits of this quick acting remedy.

WHAT IS INNER-AIDE?

Inner-Aide is not a cure-all. It is a one purpose medicine and it aims to give the sufferer quick and permanent relief. It is taken after the meals (three doses a day) having a pleasant taste that even children will not object to. It mixes with the food in the stomach and intestinal tract and helps to throw off the poisons that cause the majority of stomach and associated troubles. Inner-Aide tends to get the organs of the inner system to work as nature intended them to, to remove the acids that are causing distress throughout the body and to do all this in as short a time as possible. INNER-AIDE is not habit forming and does not have to be taken over a long drawn out period.

WHAT IS IT FOR?

INNER-AIDE or better known as Doctor Kerr's Inner-Aide is a four fold tonic it acts on both the STOMACH, LIVER, KIDNEYS and the intestinal tract. It is not a drastic physic and will not gripe the system.

It starts by getting the stomach in shape so that the foods are properly digested, it causes the bile to flow more freely from the liver overcoming dizziness and bilious conditions. Cleanses and strengthens the kidneys and the bowels and forces old toxic poisons from the body that are tearing down the health.

ACT AT ONCE

Don't put off trying this remedy. You can hardly blame anyone but yourself if you don't take advantage of this coupon (just about one third of the regular price). Rid the system of INDIGESTION, GAS and BLOATING. Remove the excess uric acid—that sometimes causes different forms of Rheumatism and Neuritis. Overcome getting up at night with bladder weakness and find that after taking Inner-Aide for a short period that you look and feel like a new man or woman, eat well, sleep well and are free from racking pains.

Old long standing cases of Indigestion, Constipation and bladder ailments have been relieved by Inner-Aide. It is safely taken by men, women and children. It contains no harmful drugs and is mostly composed of vegetable or botanic ingredients. You owe it to yourself to try this treatment. Start getting well today, then stay that way. You, too, have a right to health and happiness.
