

Campbell Sadler, owner of City Cab Co., said he is not in agreement with plans of the airport advisory committee to submit contracts for airport service to bidding, and limiting service to only two firms, as reportedly contemplated.

Sadler said "the airport belongs to the people" including competitive cab drivers. Sadler said he is not involved with the efforts of Bill Littleton, who told county commissioners Tuesday that an organization has been formed with Littleton as president, to stop operations of some cabs on the airport.

68 12 04 Sadler C Cab Co.
