Editor Herald:

One of the most interesting and best informed men you meet at the State Capitol is Hon. Nat. B. Sewell. He is a native of Laurel County, Ky., a graduate of three or four colleges, Yale University, New Haven, Conn., being one of them. Col. Sewell has been a busy and useful man, farmer, teacher, merchant, newspaper man, coal operator, State Inspector, and Examiner under former Governor Stanley, Black, Lafoon and Chandler. By hard work and untiring effort on the part of this State official he has finally succeeded in getting county officials debt conscious and in the last few years counties have paid more than four million dollars of their indebtedness. It can be safely said no man in the State today or for many years knows but little about the fiscal affairs of the state compared to Nat B. Sewell and his thousands of friends throughout the State hope

this splendidly equipped official, who has discharged the responsible duties of his office without fear or favor will be retained by the present Governor, in as important office as he now holds or one of more importance, knowing he will discharge every duty that may be placed upon him with the same fidelity and courage that he has shown in the long years of service that lies behind him.

Another gentleman who has served his state long and faithfully is Senate Clerk William A. Perry. Born in 1876. After his graduation he took a course and graduated in the University of Louisville Law Department. Senator Perry was first elected to the lower House in 1912, reelected in 1914 and 1916, was elected a member of the Senate in 1918-1922 and 1924 was elected President Pro-tem of Senate twice. To say that he was an able and faithful Senator is putting it very mildly. He was one of the powerful members of that body. His long public service shows the high esteem in which he was held by the people of his district.

He is married and has seven children of whom he is very proud and justly so. He was elected Clerk of the Senate April 3, 1936 and is held in high esteem by every member of the body he so ably serves and the writer has no hesitation in saying there will be no occasion for an investigation of the Senate Clerk's Office while Mr. Perry holds that responsible office.

Sincerely yours,
Thos. P. Reed.
