LEXINGTON, KY. June 26, 1931

John S. Buster, Sheriff
Harrodsburg, Ky.

Re Lab. No. 22743 - Home Brew

Dear Sir:-

Enclosed you will find the affidavit of Mr. Jas. H. Martin, drug chemist for this department, reporting the results of his examination of the sample of home brew delivered to the laboratory by you on June 23.

I am having him make his report in affidavit form in the hope that you may be able to use it so as to avoid, if possible, his absence from the laboratories in order to testify as a witness. In case it is necessary for him to do so his expenses will have to be paid as this department has no funds available for such purposes.

Any further correspondence relative to this case should refer to the above laboratory number given for identification.

Yours very truly

Linwood A. Brown

Linwood A. Brown
Director, Department of
Public Service Laboratories.
