FOUND DRUNK IN COURT HOUSE, GETS 30 DAYS

Albert "Cutie" Devine, 18, Harrodsburg, was sentenced to 30 days in jail by County Judge Charles T. Corn Friday when the official found the youth leaning on the door to a room in which women are working on the sewing project in the basement of the court house. Devine was intoxicated; Judge Corn said.

Judge Corn only recently declared that he was going to break up drinking and drunkenness in the court house and has since fined and sent to jail several persons found guilty of this offense. Devine is now on parole from the state reformatory for his guilt in connection with theft of cigarettes from a Harrodsburg business house. Judge Corn said Friday that he would notify Circuit Judge Kindrick S. Alcorn of Devine's conduct.

If you go in for bargains, you will want to get a box of RYTEX TWEEDED-WEAVE, being offered during March only at \$1.00 a box at The Herald. And, what a BIG box it is! One hundred Monarch size sheets and envelopes, all printed with your name and address. Other sizes, too, in generous quantities.

JUDGE ORDERS THAT BOYS BE WHIPPED

Judge Chas. Corn held a brief session of juvenile court Saturday afternoon in which he ordered the parents of two boys to give them a sound whipping and then to report to him every two weeks about the boys' behavior with the threat of a reform school sentence hanging over each boy.

The boys were James Hardin, 10 years old, and Richard Donehi, 9, the latter a Negro. The boys were brought to Judge Corn by Patrolman Jim Shirly who charged that they had been throwing rocks at the live stock and people at the stockyards and otherwise making themselves general nuisances by their antics.

Judge Corn gave each youth a lecture in front of his parents and told them he would send the boys to the reform school if their behavior was in the least bit questionable in the future. Both boys' parents promised to administer the whippings recommended by Judge Corn.

Auto Leaves Road, Goes Through Hedge

A car in which a Negro preacher and several companions, of Versailles, were riding left the road and ran through a hedge fence on a curve just beyond Shakertown at 11:30 Sunday night, damaging the car somewhat but injuring none of its passengers.

According to reports received here Jeff Kurtz, of near Shakertown, was pushing the car of Harvey Scott, Jr., after the latter car had run out of gas. The car driven by the Versailles party met the two cars on the curve and in avoiding a collision the Woodford county car left the wet road and went through the

hedge fence. It was reported that the car later continued on its way.

YOUTH IS FIGHTING FOR FOOT ON LADDER

Thirty-four per cent of the youth in the United States today are "out of work out of school, or in relief families."

The percentage is based on statistics of the National Youth Administration. They show that of the 23,000,000 young people in this country between the ages of 16 and 25, some 15,000,000 are "located" either in school or at work. The remaining 8,000,000 are members of relief families and jobless.

It is also reported that approximately 300,000 young people now on relief never have had a job.
