Gentlemen:-

X
Your draft for \$7.16 as part on freight of piano, duly received. I have opened the piano and find that it is a pretty case and has a nice tone. However, I had rather had a Krell. You Mr. Ross was very nice about the difficulty and promised that you would lend your best efforts to make the contest a success, which I presume you will, as it means a good deal to rather a successful contest with a newspaper. Either your instructions as to printing the advertising matter were faulty or you have never had a newspaper contest on for the printed matter sent me is not properly worded. We are not selling goods- we are selling work, subscriptions and advertising. Consequently I would like for you to send me coupons for many votes from 10 up to 1,000. I will return the dollar and less coupons that you have sent. I would also like to have a different class of large bill and leave off when the contest will close. Whenever the donor is referred to just simply say "Harrodsburg Leader" and omit Republican Publishing Co. You people ought to have know that the printed matter would not jibe with a paper contest. I will return the \$60,000 coupons if you will send me the kind suggested. I know you want to give good service and make these suggestions which I feel you will second. You can send the watches back any time by parcels post, insured. Will send in a list of names in a few days. Think I can have a successful contest and am relying on you people to do the right thing.

Yours very truly,

T. S. Orr,
Ed.
