The significance of the teacher cannot be overestimated. Much of the learning in our school is brought about by the guidance of our teachers. Through their more complete understanding of their subject matter, we, the students, are enlightened. What the student learns about himself is more important than any particular subject, for by this guidance and influence we hope to become better citizens of tomorrow.

At Harrodsburg High School it is this faculty that has helped us through our high school years. We take this means of gratefully expressing our appreciation to our faculty.
