

THE HOUSE OF HAZARDS

By MAC ARTHUR

TWENTY-ONE YEARS AGO
FROM THE HERALD FILES

April 30, 1915

The Harrodsburg boosters have secured a routing of the Boone highway through Harrodsburg. The meeting of the Boone highway association was at Mt. Vernon Monday. The road is to run from Cumberland Gap to Crab Orchard through Harrodsburg to Louisville. The boosters attending the meeting from here were N. L. Curry, J. G. Prather, George Bohon, James L. Isenberg, D. M. Hutton, Bush W. Allin, John G. Pulliam, Charles Chatham, T. H. Carter, L. M. Smith, T. S. Orr, Walter Martin, Ed Wiseman, C. T. Corn, C. B. Sullivan, Alonzo Riley and Charles Murphy.

Miss Ora Adams, superintendent of the Mercer county schools, was elected president of the county superintendent's department of the Kentucky Educational Association at the meeting in Louisville a few days ago.

Highway enthusiasts from Danville, Stanford and Harrodsburg met here Tuesday night to perfect a permanent organization of the Tri-City Highway Association, the object of which is to pull for the Dixie Highway to be routed through the three towns and along the Kentucky river cliff road and the historic and scenic settings of this section. This road is to go from Indianapolis to Florida.

At 9 o'clock last night fire originating in the colored Methodist church at Burgin destroyed the edifice, the parsonage, the home of Belle Perkins, the restaurant of Howard Smith and all the outbuildings.

\$11,000
Is a Lot of Money

You must raise that amount in cash, bonds, sureties or file an insurance policy if you violate the Financial Responsibility Law or you can't drive again. The best way to protect yourself is to have a GOOD liability insurance policy before the violation occurs.

Why be
NERVOUS

There's a time-tested, harmless, preparation, compounded by a specialist in nervous disorders, for the relief of Sleeplessness, Irritability, Nervous Indigestion, Nervous Headache, Restlessness, the Blues and Hysterical Conditions.

During the more than fifty years since this preparation was first used, numberless other nerve sedatives have come—and gone. But the old reliable has always been in constantly increasing demand.

Only one medicine fits this description.

DR. MILES
NERVINE

If you are nervous, don't wait to get better. You may get worse. Take Dr. Miles Nervine. You can get Dr. Miles Nervine—Liquid and Effervescent Tablets—at your drug store.

HELPED 98 PERCENT
Interviews with 800 people who had used or were using Dr. Miles Nervine showed that 784 had been definitely benefited. Isn't anything that offers a 49 to 1 chance of helping you worth trying?

Get a package of Dr. Miles Nervine today. If it fails to help you—take the empty bottle or carton back to your druggist, and he will refund your money.

ings of the several properties. The fire was so threatening that it looked as if a great portion of the town would be swept, but a large bucket brigade of citizens, with the help of firemen from Harrodsburg with chemicals, and those who went from here who joined in the fight, the blaze was finally conquered. So many homes were threatened that a number moved out all their belongings.

A half hour before the fire there had been a big wedding in the church, Susie Chenault and Mit Smith being the bride and bridegroom.

Mrs. Sue Downtown Glass, wife of Dr. Harvey Glass, pastor of Providence Presbyterian church, died unexpectedly of heart trouble about midnight Thursday. After the funeral at Providence church she was buried in Danville.

Harrodsburg and Perryville played the first baseball game of the season here this week. The score was 5 to 4 in favor of Perryville. Harrodsburg's team was composed of Sallee, fb; C. Corn, bf; Sommers, ss; Board, r; Black, 3b; T. Corn, lf; G. Black, rf; Coleman, c; Alexander, p.

About 30 Odd Fellows went to Lexington Monday to attend the celebration of Odd Fellowship. Six local men had the first degree conferred, Jas. M. Forsythe, Sam G. Brown, E. R. Duell, O. J. Chandler, Glave Vivion, John Record. 85 candidates were put through by the team.

The old Smedley house, a landmark in town, is being torn down to make way for the new hospital building.

Our citizens hailed with joy the first oil of the season which was spread on Main street Wednesday under the supervision of the committee of which Lafon Riker is chairman.

The fountain given to Harrodsburg by Mayor John G. Pulliam arrived yesterday and will be erected as soon as possible in front of the court house. It is topped with five globes to correspond with the other lights of the White Way.

News has been received here of the unexpected death in Monticello, Ill., of Mrs. C. E. Knight, mother of Mrs. Dan V. Bohon, of Harrodsburg.

A hard hail and electrical storm Thursday afternoon did some damage to buildings in Harrodsburg, put all the electric lights out of commission and lightning tore off a chimney at the residence of William Phillips, Walnut Hills.

Deaths... Mrs. Mary Brent Bradshaw, widow of Clayburn Bradshaw, died at Burgin Tuesday night. News has been received of the death in Tampa, Fla., of Miss Annie Wilson, daughter of Mr. and Mrs. Bates Wilson, who formerly lived in Harrodsburg.

WASHINGTON LETTER
SELLS FOR \$2,000

Back in Revolutionary War times, George Washington wrote a letter to one of his commanders, General Tallmadge, telling him that it would be difficult to raise \$250 for the expenses of an American spy, Enoch Crosby. This spy is believed to have been the original in James Fenimore Cooper's book "The Spy." It was hard to raise the \$250 needed for spying purposes in those perilous days, but the letter Washington wrote about it brought \$2,000 in a sale in Philadelphia recently. It had been a part of the collection of the late Charles T. Jeffrey, Merion Station, Pa.

CLOCK GETS SPRING FEVER

The courthouse, which is always a good subject for "Sun Spots," the old reliable timepiece went haywire again one morning recently. At 7 a.m. everywhere else, the clock was 10:35. Five minutes later it rang nine times, two minutes later it rang two times, and lo and behold, it was five p.m.—"Sun Spots" in Winchester Sun.

EXPERT
SHARPENING!

Lawn Mowers 50c each
Scissors 10c 2 for 15c
Butcher Knives 5c each
Other Yard Utensils Reasonable

ALL WORK TESTED
SATISFACTION GUARANTEED OR YOU DON'T PAY
10 YEARS EXPERIENCE

I will do the work in your home or at the address below. Work called for and delivered at same prices.

BRUCE
BARTON
Says:

Let's Know Program

In his "Dialogue of the Gods," the Roman satirist causes Zeus to say: "To bring charges, to find fault, and to chide is an easy matter, and within the power of anyone; but to take measures how the present state of things shall be improved, that is the part of the wise counsellor."

As the Boss of Olympus, old Zeus made the same sad discovery as every other executive—that there are a hundred folks to tell you why you are doing things wrong for every one with a constructive suggestion.

We have no lack of "counsellors" in this country, and perhaps it should not surprise us that their counsel is so conflicting. That always has been the condition. Even in the days of the men who now are referred to reverently as the Founding Fathers, the divisions of thought was as sharp as any that exists today.

Thomas Jefferson and Alexander Hamilton were hardly nearer together in their fundamental political concepts than Herbert Hoover and Father Coughlin. Jefferson stood for the widest possible practice of self-government. Hamilton had little faith in the capacity of the people to govern themselves and said so in no uncertain terms. He wanted a national authority that would leave little excuse for the continuation of state boundaries.

These two Founders were vigorous critics, but they did not stop at criticism. Each had a definite program. We have a right to demand that their political descendants should qualify for our suffrage by having programs also.

No candidate should be chosen just because his lungs are the stronger. A proper question is: How do you stand according to the yard-stick of old Zeus? What "measures" do you propose, "by which the present state of things shall be improved?"

A hard hail and electrical storm Thursday afternoon did some damage to buildings in Harrodsburg, put all the electric lights out of commission and lightning tore off a chimney at the residence of William Phillips, Walnut Hills.

Deaths... Mrs. Mary Brent Bradshaw, widow of Clayburn Bradshaw, died at Burgin Tuesday night. News has been received of the death in Tampa, Fla., of Miss Annie Wilson, daughter of Mr. and Mrs. Bates Wilson, who formerly lived in Harrodsburg.

When the elimination organs are working properly, one seldom gets sick. These are the bowels, kidneys, skin and lungs. The latter three are not understood by laymen as they should be. If a liver is overloaded with work (from too much starches and sugars), the kidneys may attempt to carry off excess waste matter, as evidenced by heavy, red output of fluid—and, in time, it may break down if the condition is not attended to. Long-continued, dark-red, burning kidney excretion should at once take the victim to his physician, who may discover, not the kidneys at fault, but deficient intake of water, or a loaded liver. In either event it is faulty elimination.

Long-continued, dark-red, burning kidney excretion should at once take the victim to his physician, who may discover, not the kidneys at fault, but deficient intake of water, or a loaded liver. In either event it is faulty elimination.

Two things should always be ob-

liged to do: drink plenty of water to stimulate the kidneys to their utmost capacity.

At the same time the wise doctor limits the intake of solid food, to prevent more overloading of an already overtaxed system.
