SALVISA SCHOOL

At the District Kentucky High School Forensic contest, to be held at Springfield on March 28, Marshall Sanders, junior, has been chosen to represent the school in the declamation division, and Edna Record, senior, will enter the dramatic monologue division.

The characters in the senior play "Hold Everything," was selected Monday, and practice will begin this week.

The Hi-Y members and the Girl Reserves group were very fortunate in securing Mrs. James H. Spilman, Bargin, to teach the weekly Bible class held Monday afternoon. In her talk on "My Attitude Toward God," Mrs. Spilman said our first relation with God was that of the creature with its creator. After our spiritual birth, the relation becomes that of the child and the father. By several instances in Jesus' life, the speaker pointed out that God is interested in every activity and thought of his children.

Because of an epidemic of flu and a few cases of pneumonia, the attendance has been considerably lessened, some classes having as few as fifty per cent of their members present.

ROSE HILL

The school wishes to thank all those who helped make the recent amateur contest a success. The contestants were kind enough to repeat the program for those who were unable to get into the auditorium for the first performance. We also want to thank Mr. Roy Sutherland, who acted the part of Major Bowes.

Rose Hill won the county spelling contest for the second consecutive year when Margie Evelyn Carpenter, member of the eighth grade class, spelled polygamy and auxilli-

F. D. R. Makes Appeal To Nation's Farmers

President Asks Farmers To Co-operate With Government Crop Control Program.

President Roosevelt has appealed to the nation's farmers to refrain from increasing their acreages of commercial cash crops and to co-operate with the administration's soil conservation program.

Asserting that if farmers failed to take advantage of the new program, the consequent excessive production of cash crops might result in the "wrecking of their prices and the under mining of their soil," he added.

"This is an appeal to all farmers to co-operate for their own and the national good to help in preventing excessive production."

Meanwhile, AAA officials said they expected to uncover details of the new program late Friday.

MOTHERS' PROBLEMS

WITH CHILDREN

In explaining death to children never speak of it in hushed and tragic tones if you wish to build up a wholesome, normal attitude toward it. An explanation of the philosophy of death depends naturally upon the parents' creed; parents should answer children's queries sincerely. The physical facts of death can be told simply with no hint of gruesomeness attached to them.

Jealousy, a natural trait of childhood, is sometimes said to be one of the main causes of a child's unhappiness. A feeling of security in the affections of father and mother is the surest safeguard a child can have against jealousy.

The skin of some children is sensitive to olive oil; many hospitals advocate neither oil nor powder for the infant's bath, but only warm water, castile soap and thorough drying. The best counsel is to follow the advice of a physician in whom you can place complete confidence.

The honor roll for the 4th six weeks is as follows:

1st grade: Elsa J. Sallee, Bernice Baxter, Betsy Sue Freeman, Jesse Louise Davis.

2nd grade: Jane Shelton, Marshall Freeman, Harold Huffman.

3rd grade: Wanda Mae Huffman, Virginia Lee Sims.

FRED WALLIS IS RIGHT

(Woodford Sun)
Frederick A. Wallis, chairman of the state Department of the Public Welfare, is absolutely right when he recommends the abandonment of the present Eastern State Hospital, and the erection of an entirely new plant. It is a terrible thing that so many insane people have been for years jammed into this old makeshift, in which they may be burned to death at any time. No evil in Kentucky calls louder for immediate relief.

Mr. Wallis recommends that PWA funds be sought. If the effort is successful, well and good. If not, the plan should be carried out just the same.

If it were possible to persuade every citizen of Kentucky who has a heart to visit this firetrap, and to see the dreadful crowding and jamming of sick people who are supposed to be sent there for treatment, the public demand would force speedy action after the many years of talk.

PAYMENT OF \$100,000 FOR STATE RELIEF IS ORDERED

Governor Chandler has authorized payment of \$100,000 for state relief this month. The payment compared with \$250,000 a month, which the state has been contributing toward the relief fund.

The governor explained that the weather is moderating and the demand for relief was less.

BIBLE PRINTED IN 1629 OWNED BY WESTENER

W. Lock-Padden, of Wastomville, Calif., believes he owns one of the oldest Bibles in the United States. It was printed by Bonham Norton and John Bill in London in 1629 although the Book of Psalms dates back to 1628.
