**POTATOES AT \$1-A-PECK FORECAST BY DEALERS**  
Potato prices, driven up by frosts and spring drouth, were headed toward what Chicago commission men predicted would be a retail peak of from 90 cents to \$1 a peck.  
They cited as a nine-year high the wholesale quotation of \$4.20 to \$4.25 for 100 pounds for new and old potatoes on freight tracks yesterday, or about 66 cents a peck, against \$1.45 to \$1.70 for 100 lbs. a year ago.  
Commission men said prices would continue upward until late crop harvesting.

**Fine Wire Valuable**  
Platinum fuse wire used in delicate electrical instruments, meters and special radio tubes is drawn so fine that one grade of it is not considered expensive even at a price that makes its cost \$11,000,000 a pound, writes James Cooke, Philadelphia, Pa., in *Cotton's Weekly*.

## FORD V-8 ECONOMY MEANS

HIGH "Dollar Mileage"  
(MORE MILES PER DOLLAR)

ONLY THE FORD V-8 GIVES YOU ALL THESE FEATURES

1. V-8 ENGINE PERFORMANCE WITH ECONOMY
2. SUPER-SAFETY MECHANICAL CAL BRAKES
3. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE
4. WELDED STEEL BODY - STEEL STRUCTURE AS WELL AS SURFACE
5. CENTER-POISE RIDING COMFORT

NO MATTER how you classify your expenditures for car up-keep — it's your total expenditure that counts. How much "dollar mileage" is your car giving you?

Dollars do go farther in the Ford V-8. Modern improved carburetion gives you unusual gasoline mileage with brilliant V-8 performance. Most owners of today's Ford change oil only every 2000 miles and add none between changes.

And after the first few thousand miles you begin to understand what Ford V-8 "dollar mileage" really means.

It gives you more miles per dollar because it gives you all-round economy — low first cost, low up-keep cost, low depreciation and long life — as well as low gasoline and oil consumption. All these are big items if you aim to buy the most economical car.
