Subject: From Amsterdam with love

My dear Faysal,

Aside from the political situation in Lebanon I personally hope all is well on your side.

Question: If you, Feisal, were given supreme power in Lebanon, I am interested, what would your SWOT analysis look like?

Spring is the best time for Amsterdam as well as for the Netherlands.

Nature blossoms and makes you forget the miserable time of Covid.

The only malheur is Vera's Alzheimer. What she doesn't know never

existed. Her short memory is failing her and she has lost her sense of

time. It is curious that this handicap does not disturb her. There's no point

in arguing with her. She denies that she needs help and thinks she's okay.

That's a well-known symptom of Alzheimer's. It is what it is and I am the

care taker of her.

Another topic. Among my books I found the booklet 'Falling water', which I

once bought in Chicago. In Chicago, Vera and I spent a day visiting

houses designed by **Frank Lloyd Wright** that were open to the public. We

did not visit 'Falling Water' in Pennsylvania. This house is now a museum.

I want to send you this booklet because the design of your 'beach house'

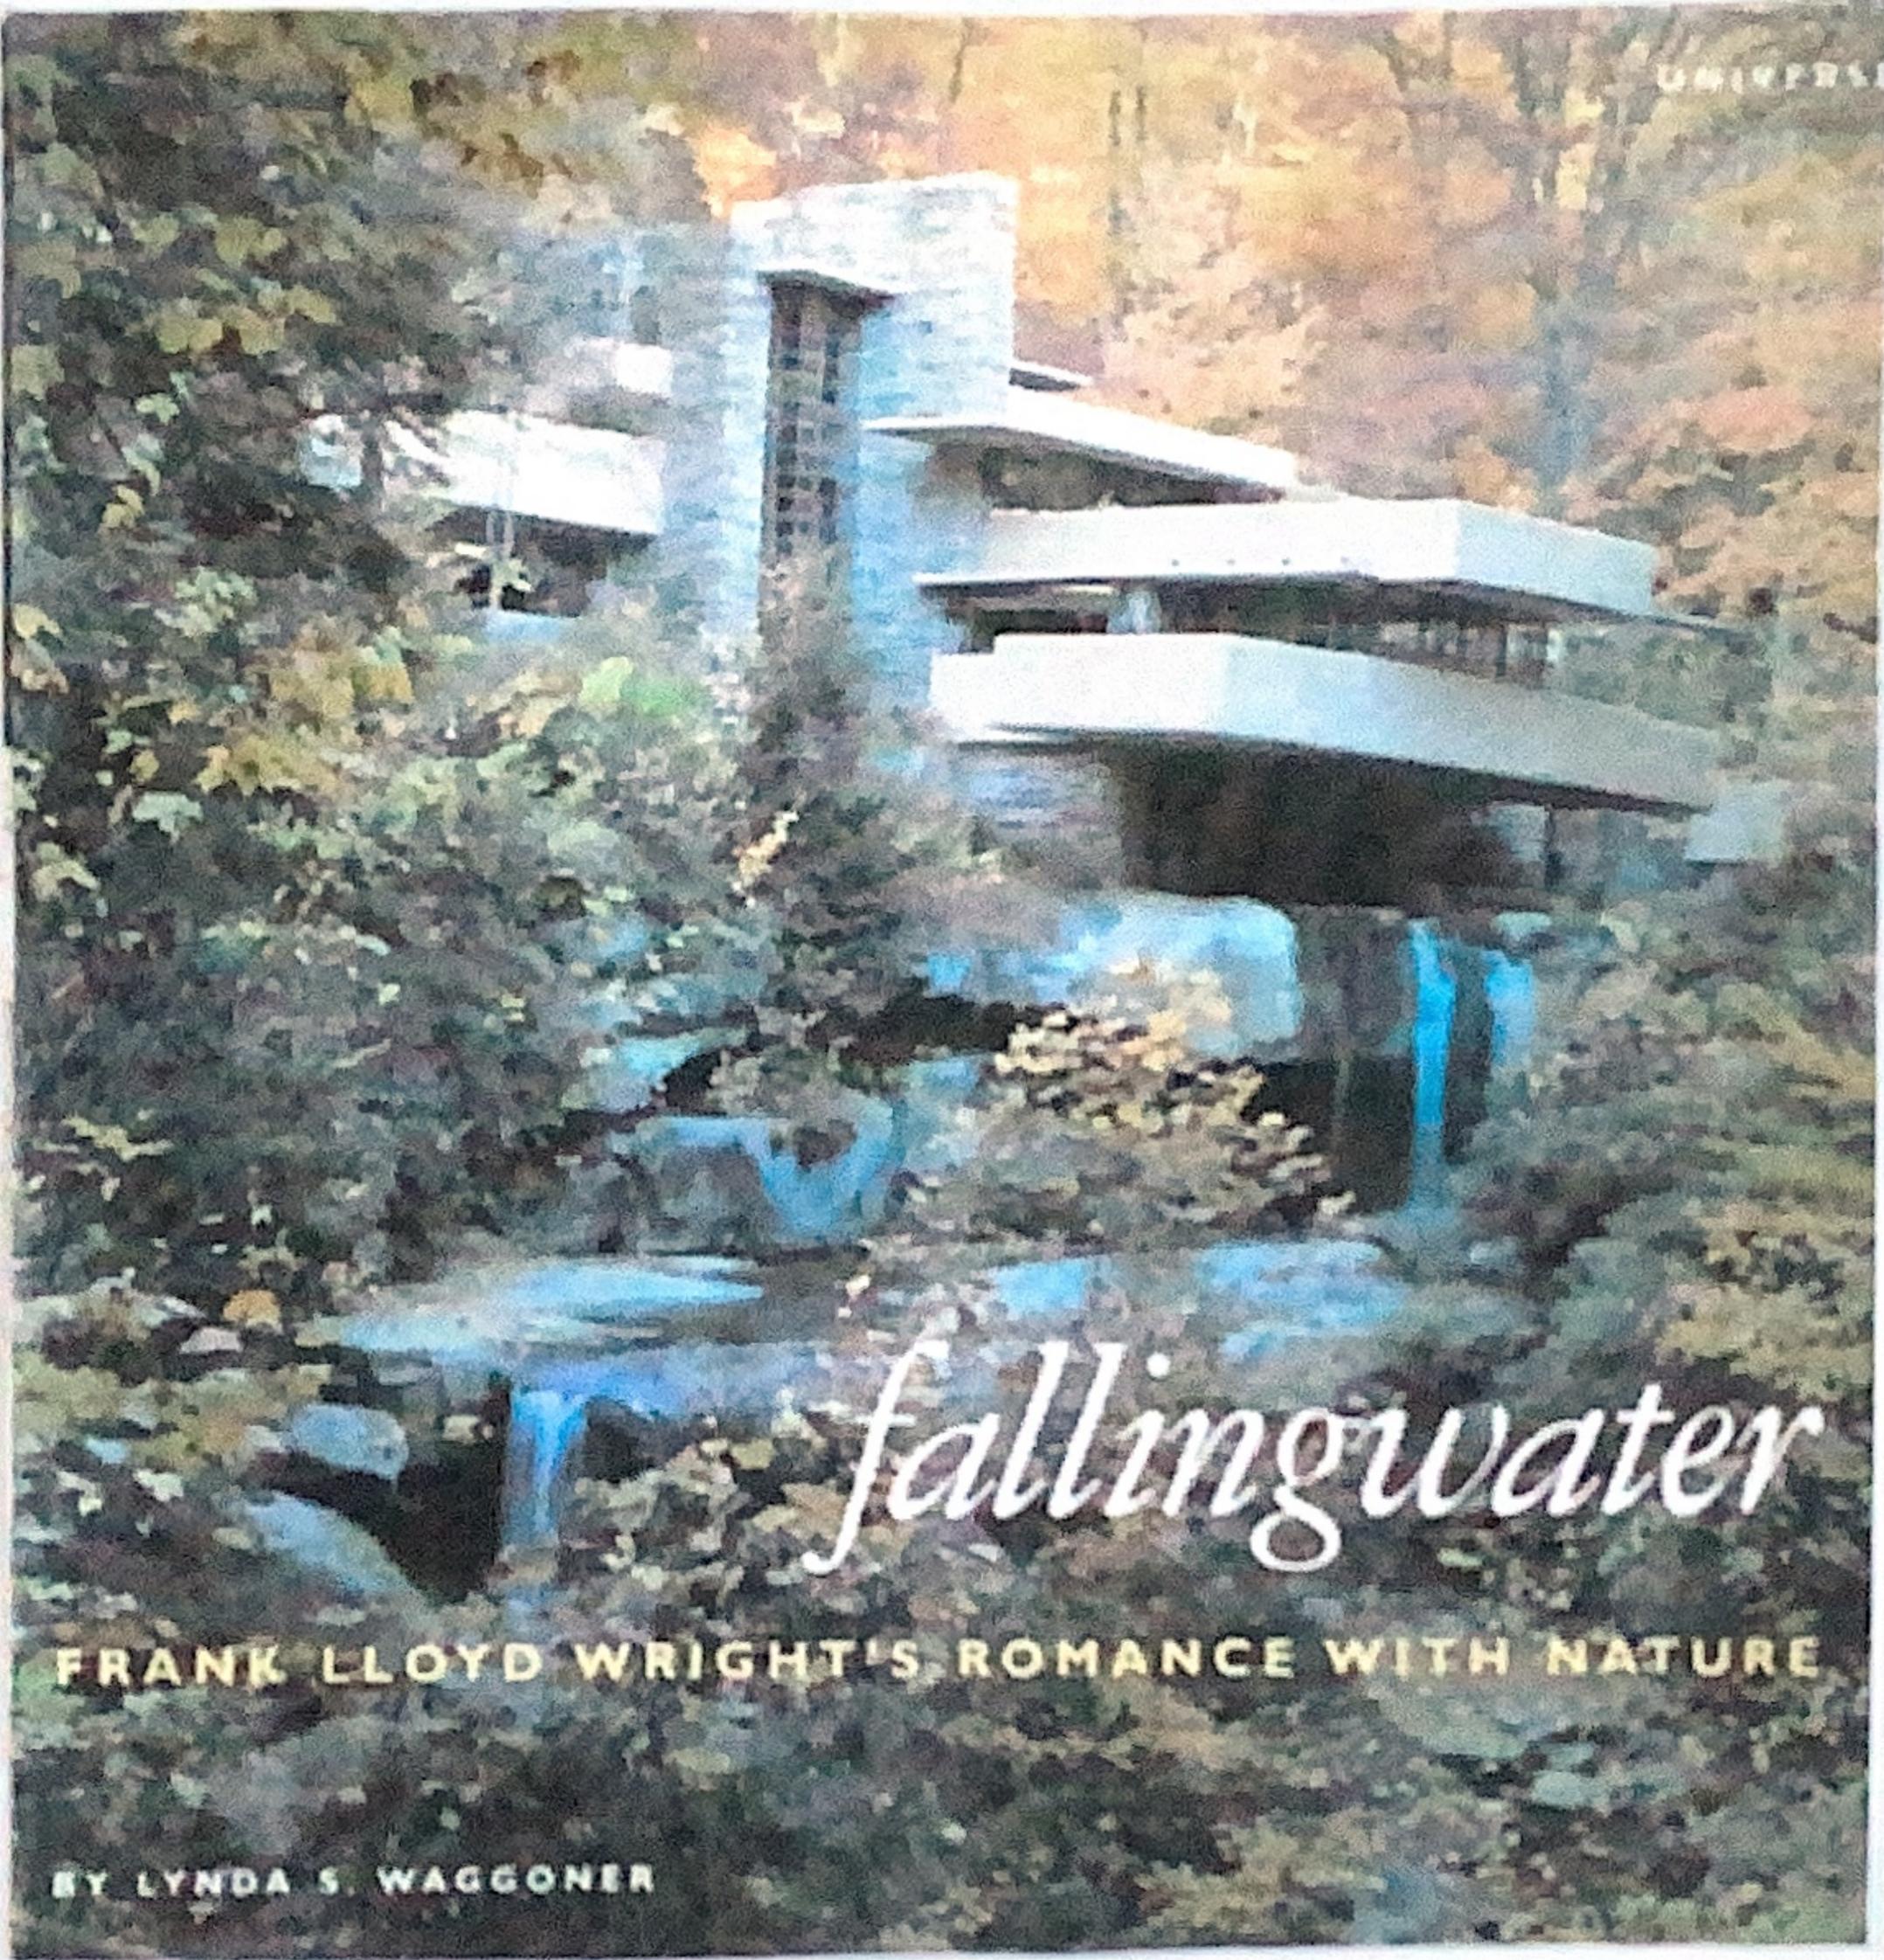

is inspired by FLW's 'Falling Water'.

Let me have your current postal address.

Wish you and May and as a matter of fact, the whole family, the best of all

UNIVERSITY
