**Onderwerp:** Disbelieve and shocked.

Dear Pat and Ferrell,

I was eyewitness of the second crash into the WTC tower, dispicable deeds of suicide killers. We offer through you our condolences to the whole nation. My son Reinoud phoned me. The world had become a village and we have become one family. The family of men. We mourn with you and feel united that the evil genius should be severely punished. Not the capital punishment. That is too humane. In the middle ages some castles had an additional carcer under the ordinary dungeon. The deeper carcer was connected by a bars in the floor of the top one. The hight was not over three feet. Once you were sentenced to the bottom carcer, say for twenty years, you were buried alive. Regarding food, you were dependent on what the the prisoners above you deign to share. This is, in my opinion, a suitable reprisal for these terrorists.

It has been the Americain behaviour- philosopher B.F.Skinner who learned us that that the consequences of our dealings determine our behaviour.

I pray that the President will not order the regular army to mobilize for an all out war on whichever country. I cannot oversee the consequences for more suicidal acts. It wil be an A-Semitric war. Look at the a-semitric war between the Iraelian army and the Palestinian youth together with the fundamentalistic suicide killers. An army cannot defeat invisible terrorists, who have no other goal then to destroy the western civilisation. These terrorists challenge the West to use their highly sophisticated weaponry. It will bring further chaos and recession. And that is their objective. No, we should now legalize the same practices as they employ. Infiltrations, whilst infringing on privacy laws and political killings inside and outside the USA of state ennemies is permitted. In a similar way we in Europe should step up the same counter attacks counter attack measures.

We trust that President and his cabinet will take the appropriate measures directed to find the guilty and that he will not give in to unwise actions in order to prove his leadership.

Our regards also to Sarah and Barney, Vera and Adriaan
