Rhooon, 27 January 97

Dear Ursula & Stuart,

"Chance has its Cause" (Suum habet fortuna
rationem: Petronius). The Cause is the prepared
mind and the resulting chance is coined:
"Serendipity" by Walpole. During 17.5 years
in Rhooon we always were prepared to leave the
village at a suitable moment. It happened at
my Student Club at 1.30 AM that an old boy
who knows me vaguely, approached me and said
that he had an apartment in an monumental
building to offer me. We went immediately to
Amsterdam. The outside was pretty. We liked the

area but the inside had to be completely renovated. The subconsciously longing to leave Rhon all of a sudden became a strong urge. We receive two sorts of comments. Some declare us fit for the madhouse; others are delighted and envy us. Que sera, sera, what will be, will be.

Floris did come back in the fold of the family, who resided in Klosters Switzerland on the 31st December 97. In the same hotel I met the member me in the Netherlands of the accounts (moret, Ernst & Young). On New Years eve I introduce Floris to Mrs Sanders at 19.00 hours. Hello, I am Floris and I am going to bed. (Get up). Two days after his arrival in Rhon he got an interview, did a psychological test and very satisfactory and I expect that he will be offered a job. // 3 months Nordwilt is required because the Adam appartement refurbishing is not yet finished.

In haste Love and understanding

Vera + Adrian
