Dear friends Faisal and May,

where ever you are, we do hope and pray that this mail reaches you and May in an good health and that none of your children and grandchildren were near to the explosions in the harbor that devastated Beirut. What a calamity. ' Pauvre' Beirut, pauvre peuple de Lebanon. Words are not. enough to describe our sadness.

A 2019 description of Lebanon's economy states that main growth sectors include banking and tourism. Since the banking industry and tourisme are in tatters, what will be the solution for a jumpstart of the economy i.e. reducing the huge unemployment ?

A think-tank, consisting of good willing people from different walks of life, should come forward with sensible idea's save the country as soon as possible.

We would love to receive from you a token of life. Mind the covid-19 virus !

With much love to you both rom Vera & Adriaan
