PRESENTS

**A PRACTICAL — ALL WEATHER —
DRIVE EVERY DAY**
1934 VINTAGE BRITISH SPORTS CAR
(Fiberglass replicar body kit)

PAT. PENDING

The Frazer Nash is one of the world's most beloved sports cars. Built in England it has a brilliant record in racing and hill climbs. Made only in limited numbers it is sought avidly by collectors . . . for few appear on the market and the English do not want them sold out of their country. Antique and Classic's replicar model is close, to the original in design. It represents a practical car with considerable weather protection, a windscreen that folds flat across the scuttle, sweeping, racy fenders, roomy interior and adequate luggage space. You will want this sports car in British racing green the moment you see it. A great addition to our line which includes the Bugatti and Alfa Romeo. In right photo note how windscreen folds down for "sporty look." Windshield and top are on accessories list.
