Dear Fred,

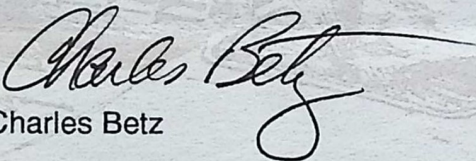

Enclosed are copies of the paperwork on the 225 Ferrari #178. My apologies are plenary for the long delay in sending these to you. I have given copies of all these documents to Horace Jeffrey.

Horace was here earlier today and seems to be finally ready to complete the transaction for the 375MM. As you have found it takes a while for Horace to make up his mind. Congratulations on giving him the necessary encouragement to make that decision; I was unable to instill any sense of urgency.

Are you coming out for the August bacchanal at Laguna Seca, Pebble Beach and related venues? If you are coming, please let us know, we would very much like to meet you in person. We will be racing our TDF and Gordon Wheeler's 212 Vignale. Gordon, a very experienced driver, will drive both cars. At the National meet we will show the TDF, 250TR, and a 166 Touring Coupe (#0079).

My wife is in Pennsylvania now; I'm too involved to make it this year. If you have a chance, say hello to Mark Morgan, he should be on staff starting August 1.

Happy Motoring!

  
Charles Betz
