A Tribute to the COIN OPERATED LAUNDRIES in the Erie Area

Life is easier for housewives because of a growing service industry in the community—the COIN LAUNDRY.

This new development enables the homemaker to keep family clothing clean and shining with little tax on the family budget.

Through the vision of local business men, these coin-operated laundries now serve all sections of Erie County.

Two factors have determined the choice of equipment in these laundries. First, the washing and drying must be thoroughly satisfying to the housewife. Secondly, operating and maintenance costs must be kept low, to hold down the charge for the services rendered.

Pennsylvania Gas Company is proud to pay tribute to these neighborhood plants, which almost without exception use GAS as the fuel to dry laundry that is fluffy, sweet-smelling and a pleasure to the families who use the Coin Laundry services.

A tip from the Professional Laundries to the Home Laundry owner:

Clean dependable natural GAS is naturally best for drying clothes. Only a flexible flame offers the controlled heat required to safely dry all fabrics soft, fluffy and sparkling bright every time! You'll speed through washdays with an automatic GAS clothes dryer . . . the fastest, thriftiest way to "dial-in" the sun!

Gas Company Display Rooms at 1021 French Street, Erie and 200 N. Center, Corry
