H. BERGERON

Volume 1

Burbank Junior High School, Berkeley, California

Number 5

-P-E-R-S-O-N-A-L-S-

Allen Stacy, a Burbank graduate has just been appointed to a place in the Berkeley Fire Department.

MISS MR. LOURA

Every one regrets that Mr. Loura's injury has made it impossible for him to continue his work. We hope rest and care will enable him to return soon, as we miss his sunny smile and cheerful "Good morning."

ASSISTANT TEACHERS

The Misses Letson and Walker have joined Burbank's teaching staff, and will assist the teachers of various classes. Both young ladies have done their cadet work at the University High School, and are getting further experience before accepting positions. Burbank is glad to have these young people, and hope we may be mutually helpful.

ANOTHER FISH STORY

The "News" wishes to thank Mr. and Mrs. Charles Waugh for the gift of a beautiful bass--the result of a fishing trip. We know of one fish story that was not too good to be true.

INVESTIGATES PIE BAKERIES

Mrs. Skimmings, Mrs. Tomsen and Miss Truman spent a portion of the holiday investigating bakeries that specialize in pie. We mean to serve the best pie ever baked, at the Music Carnival, Sept. 19.

Alan Purves spent his week-end vacation in the Tahoe region. He assisted in applying a coat of paint to the summer cottage which they have there.

Mrs. Tomsen spent a portion of her vacation touring the dry portions of Nevada. She seemed to specialize in sage brush and bad roads. In her wanderings, she traveled about 800 miles, and enjoyed a snowstorm.

Mrs. Golden and Mrs. Eila Smith also hunted the wide-open spaces, going as far north as Eureka.

Mrs. Abbott, Burbank's new teacher, has left Burbank for Willard. Willard has been growing and has more children than Burbank. The larger school needed more teachers, so Burbank lost a good teacher.

SEPTEMBER DANCE FOR BURBANK

Saturday evening, Sept. 26, will be an enjoyable evening for Burbank pupils and friends. Japanese lanterns, colored lights and good music promises a whole evening of fun. Admission, only twenty-five cents. Don't miss it!

THE VOLLEY BALL GAMES

The L9 and H9 girls played three games Sept. 2, and three games Sept. 3. The H9 won both sets of games which makes the H9's the school team.

The L8 and H8 girls played on three different days and the H8's won once and the L8's twice. This makes them the school team for the juniors.

Schedule for girls' games:

Tuesday, September 29 at Willard

Burbank vs. Willard

Thursday, October 1 at Burbank

Burbank vs. Edison

Tuesday, October 6 at Garfield

Burbank vs. Garfield

Schedule for boys' games:

Tuesday, September 29 at Burbank

Burbank vs. Willard

Thursday, October 1 at Edison

Burbank vs. Edison

Thursday, October 8 at Burbank

Burbank vs. Garfield

In the boys' new gymnasium there is a new volley ball court. It is in the middle and will not interfere with the basketball courts.

SCIENCE NEWS

A poisonous scorpion was captured last July by Edgar Sorensen. Forgetting to bring it to the science room, he left it in a can. Last week when he looked at it there were seven baby scorpions with the mother. Now they have been killed and are being mounted and will be shown with the next science exhibit. Several classes watched the process of killing and mounting. Anyone finding interesting things, should bring them to Mr. McCaleb.

Carmelita Mendes spent her vacation at Carmel. She tried her luck as a fisherman, but did not succeed in catching any fish that were edible.

Joseph Johnston spent part of his vacation fishing near Antioch.

John Shirley visited Gaston mine in the Sierra Nevada mountains. He tried panning for gold in the near-by creek.
