

QUIMPER 74 \$4,450

Incredible massive vase with a detailed hand painted family scene on the front and an impressive detailed floral image on the reverse side. The Quimper coat of arms are on one side of the neck and the Brittany coat of arms on the other side. With bold décor riche designs extending top to bottom and around the upper rim, this bold vase measures 23" high and 9 ½" across and is quite heavy. In perfect condition, we purchased this directly from renowned Quimper expert and author Marc Pasquiou over 25 years ago in Brittany where we spent the day with him. It is marked HR Quimper inside the top and on the bottom and dates from 1895. Note that it is much larger than some of the photos depict. This piece is an absolute treasure and would be the center piece of most collections.
